

U.S. Asks True Democracy In Reich

Icy Rainfall Disrupts City's Power, Traffic

An unusual eight-hour rainfall in Edmonton early Friday caused a city-wide break in the city's electric light and water supply, brought icing conditions on streets, disrupted bus and street car service and led to numerous minor car accidents.

The rain started about 2:30 a.m. and lasted until after 9:00 a.m. It froze as it struck the ground and left streets in a glassy condition.

Hundreds of people suffered minor bruises as they slipped on the ice while walking to work, but no serious accidents were reported to hospital authorities.

The power break which paralyzed the street car and trolley bus traffic from 15 minutes to an hour in all parts of the city occurred about 8:45 a.m. It was caused by a small amount of water from melting ice on the power plant roof dropping on one of the main insulators.

This caused "a flash" short circuit according to W. J. McFarland, superintendent. Mr. McFarland said Friday's break was the first of its kind in 10 years. In other breaks, only some circuits have been affected.

The lights at the power plant also were out of commission for a short time Friday night. Employees were forced to cut in power from the Calgary Power company until their machinery went into operation again.

The flash at the plant and a release of steam from the large boilers were heard by residents in most districts surrounding the plant.

Traffic Disrupted
The break put Edmonton's traffic lights out of order for some time, and made hundreds of persons riding street cars late for work.

City hospitals reported three persons injured in falls on icy streets Friday morning.

Mrs. Margaret Essex, 64, of 10205 119 ave., in General hospital suffering fractured wrist.

Harold Neilson, employee of McCabe Feed company, in Misericordia hospital suffering leg injury.

Sister Euphrasia, nun, in General hospital, suffering undetermined minor injuries.

Milkmen and breadmen making deliveries with horse-drawn vehicles reported considerable trouble on hills as their animals slipped on the icy streets. One milkman's horse fell while going down 102 st. hill, south of Macdonald drive, but was not seriously hurt.

A motorist travelling east on Jasper ave. caused a traffic jam for about three blocks when his car skidded broadside in the subway at 100 st.

City hospitals reported little inconvenience from the power break. The University hospital switched over to the University of Alberta power plant, and though lights were somewhat dimmer, carried on as usual.

Carry On Operations
The Royal Alexandra hospital, the General and Misericordia hospitals all dependent on the city supply, were in darkness, but in the operating rooms where operations were in progress, emergency lights powered by batteries were brought into use.

Officials at the bus depot said most of their vehicles were about two hours late because of dangerous conditions on highways out of Edmonton.

To relieve the hazards on city streets the city engineer's department had additional men working in the morning covering the sidewalks with salt and the street intersections with cinders.

What's Happened To The Irish?

PORTLAND, Ore., (AP)—The Irish are going to give a St. Patrick's day dance.

The place—Norse hall.

The orchestra—Van Hoomison's.

Improvement Seen In Nelson Boy

CLARESHOLM, (CP)—Condition of four-year-old Alan MacPhail who was taken off a C.P.R. train and admitted to the Clareholm municipal hospital Wednesday night after suffering a head hemorrhage while en route home from Calgary to Nelson, B.C., had shown some improvement Thursday night, his mother, Mrs. A. S. MacPhail, said.

The boy, once thought to be suffering from incurable Hodgkin's disease, had just returned from the Mayo clinic at Rochester, Minn., where his ailment was diagnosed as a duodenal ulcer.

Mrs. MacPhail said she expected her son would be detained at Clareholm for at least 10 days.

Paraguay Battle Reported Raging

ASUNCION, Paraguay, (AP)—Insurgents based in Concepcion were reported without confirmation Friday to have joined battle with loyal government troops and to have enlarged their forces and range of operations through an indicated area 100 miles wide.

The government said Thursday night that Loyalist planes had "bombed rebel military objectives" outside Concepcion, Paraguay river city.

Earlier unconfirmed reports, first to tell of ground fighting, said the rebels had tried to capture Puerto Pinasco, near the Brazilian border.

Similar unconfirmed advice said that Maj. Cesar Aguirre, rebel leader, had through "forced mobilization" built up his troops from 600 to 2,000 since the revolt began a week ago.

The Weather

Forecast: Overcast, becoming cloudy late this afternoon and during this evening, clear Saturday. Light winds increasing to west 15 m.p.h. tomorrow afternoon. Continuing mild.

The mild Pacific air is stationary near Edmonton and Medicine Hat Friday and has lifted temperatures into the thirties. This Pacific air will advance slowly eastward during the next 36 hours with overcast conditions. Gradual warming is occurring for 200 miles ahead of the mild air.

Clear skies throughout most of Saskatchewan Thursday night and low temperatures to fall and advance slowly. This Pacific air will advance slowly eastward during the next 36 hours with overcast conditions. Gradual warming is occurring for 200 miles ahead of the mild air.

Peace Treaties of Germany, Austria On Big Four Agenda

Called primarily to discuss peace treaties with Germany and Austria, the Big Four conference in Moscow has heard a suggestion by Russia that the Chinese situation be discussed. Friday, the possibility of China being included in the agenda diminished, despite Russian insistence. One source said it was highly unlikely China would agree to participate, and it seemed unlikely the Far Eastern situation would be discussed even informally. In the above picture, taken at the opening of the conference, Foreign Minister Molotov can be seen on the left and Secretary of State Marshall on the right, both surrounded by their aides.

Is Not at Best When He's Angry

PATERSON, N. J., (AP)—Judge Milton Schenck said he understood and granted Defence Council Peter Tohn his request for an adjournment Thursday in the hearing of an assault and battery case.

"I'm in no mood to try a case right now," Tohn had told the judge. "I want the adjournment to give me time to file my income tax return."

Weather Mixture Worries Britain

LONDON, (CP)—A raging blizzard in northern England and Scotland, contrasting with the thaw in southern England which has swollen rivers to the point of bursting their banks, Friday gave Britain one of its worst mixtures of weather in history.

Another blizzard swept east Yorkshire Friday and the country was warned by air ministry forecasters that more snow and sleet is expected in all areas.

The effects of the latest weather have been two-fold: snowstorms which lashed Yorkshire, Northumberland, Durham and Scotland buried coal-carrying trains and thousands of acres of farmland threatening the country's food-growing program.

More than 100 main roads throughout the country were blocked by floods, and harvest prospects were threatened by rising waters. In Lincolnshire farmers were working behind with spring sowing and unless there is a quick weather change this year's harvest may be disastrously affected, a National Farmers' Union official said.

The private grounds of Windsor Castle, the racetrack and the playing fields of Eton were under three feet of water.

Think France Able Make Atom Bombs

LAKE SUCCESS, (AP)—Frederic Joliot-Curie, ranking French expert on atomic energy, implied Friday that France, too, knows how to manufacture atomic bombs.

In a highly technical article written for the magazine United Nations World, the French scientist, one-time assistant to Mme. Marie Curie, declared that the principle of the atomic bomb is "simple."

Without specifically saying France has the "know-how" to build atomic bombs, Joliot-Curie, nevertheless, gave the impression that France can turn out atomic bombs.

A digest of his article issued by the United Nations World said that "France today has the know-how to build atomic bombs, according to Dr. Frederic Joliot-Curie."

The text of the article, however, does not include that specific quotation. Yet, the article is filled with obvious implications that France knows the secret of manufacturing atomic bombs but does not have the necessary materials.

American and British atomic scientists believe only the United States has the real "know-how" to build atomic bombs and that other countries are still in the experimental stage of atomic research.

Ban Closed Shop In North Carolina

RALEIGH, N.C., (AP)—The North Carolina legislature Thursday gave final approval to a bill to outlaw the closed shop and the mandatory dues checkoff in this state. Since the North Carolina governor has no veto power, the measure will become a law after the formality of ratification.

ALBANY, N.Y., (AP)—Under the leadership of Governor Thomas E. Dewey, the Republican-controlled legislature early Friday voted to outlaw strikes by public employees in New York state.

U.S. to Establish Philippines Bases

MANILA, (AP)—A 99-year agreement providing for five major American military bases and other minor posts in the Philippines was formally signed Friday night. The agreement contains a proviso that in the interests of international security any of the bases may be made available to the security council of the United Nations.

Haifa Oil Refinery Blasted; Two Trains Are Wrecked

JERUSALEM, (AP)—Official reports from Haifa Friday said the oil pipeline within the Haifa oil refinery area was blasted by five small bombs early Friday, but that the blast was brought quickly under control and "no serious damage was caused." No casualties were reported.

Police said the bombs were placed by five men they described as Jews. The blast occurred on the Iraq Petroleum company's property near the huge refinery installation. The pipeline was not in use at the time because of an eight-day strike of a thousand Arab laborers.

Reliable sources said Hagana, largest and most moderate of the Jewish underground organizations, was acknowledging authorship of the blast as "retaliation" for the deportation of refugees from the ship Sussana, beached in southern Palestine Wednesday.

The blast followed a series of incidents Thursday, including the wrecking of two trains and two jeeps, the death of an engineer and injuries to a British officer and a fireman.

(An announcement from Nicolas, Cyprus, said five Jews and one British soldier were injured when Jewish terrorists held a demonstration at a camp there.)

Powers of Wheat Board Are Extended Until 1950

By H. R. Hardy
OTTAWA, (CP)—Extending the powers of the Canadian wheat board until 1950 the government's Wheat Board bill was given final reading Thursday night by a vote of 172 to 7. Liberal members alternatively jeered and cheered as members of all opposition groups, many of whom bitterly opposed various provisions of the bill, rose in their places and voted for it.

Particularly singled out for the "oh's" and "ah's" of the Liberals were Progressive Conservative leader John Bracken, A. L. Smith, Prog. Cons., Calgary West, John Diefenbaker, Prog. Cons., Lake Centre, C.E. Leader, Coldwell, Stanley Knowles, C.C.F., Winnipeg, North Centre, and J. A. Ross, Prog. Cons., Souris. All had fought bitterly against the government's wheat policy during the debate.

The seven dissenters were John Hackett, Prog. Cons., Stansfeld; Lawrence Shaw, Prog. Cons., Toronto; W. R. Aylesworth, Prog. Cons., Frontenac-Addington; F. T. Stanfield, Prog. Cons., Colchester-Hants; Jean Francois Pouliot, Ind. Lib., Temiscouata; Jack Gibson, Ind., Comox-Alberni; and Real (Continued on Page 8, Col. 1)

Looking for Job? Here's Opportunity

OTTAWA, (CP)—If any unemployed reindeer herders are wondering where their next job is coming from, all they have to do is to apply to Canada's resources department.

In this somewhat restricted profession, according to the department's annual report, there is a shortage of manpower. Thus it is a hard job to keep control over the herd Canada maintains in the North West Territories.

Says the report: "The lure of big money from fur trapping has drawn away young northern natives who would normally have become apprentice herdsman."

Report Bombing Of Red Capital

SAN FRANCISCO, (AP)—The Chinese Communist radio, heard in San Francisco by the Associated Press, said Friday 25 "American-made" Chinese government bombers and pursuit planes raided Yenan, Red capital, for eight hours Thursday.

De Havilland, March Win 'Oscars' As Best Film Players of Year

HOLLYWOOD, (AP)—Frederic March was chosen as best actor of the year and Olivia de Havilland was named best actress—but handless Harold Russell stole the show at Thursday night's 19th annual presentation of awards by the Academy of Motion Picture Arts and Sciences.

Russell, the veteran with the hooks in "The Best Years of Our Lives," which won the "best picture" award, went home with two Oscars tucked under his arm.

His "Best Years" role, his first in motion picture, brought him academy acclaim as the best supporting actor, and a special award by the academy's board of directors.

It was March's role in "The Best Years of Our Lives," which won the Oscar, while Miss de Havilland took home the coveted statuette for her performance in "To Each His Own."

A special award was given Laurence Olivier for his work in direction and producing of the British picture "Henry V."

Other major awards went to Anne Baxter, for her supporting role in "The Razor's Edge," and to the director of "Best Years," William Wyler.

Minor awards included: For distinctive achievement in documentary production (short subjects), "Seeds of Destiny," by U.S. war department.

Cartoons, "The Cat Concerto," produced by Frederick Quimby for M.G.M.

Best achievements in cinematography (black and white), "Anna and the King of Siam;" (color) "The Yearling."

"The Seventh Veil" by Muriel and Sydney Box received the Oscar for the best original screenplay.

Best original song was "On the Atchison, Topeka and Santa Fe," written by Harry Warren and Johnny Mercer.

Moscow Press Launches Hot Attack on Truman

Two of Byrd Group Killed in Sydney

SYDNEY, Australia, (AP)—Two crew members of Admiral Byrd's United States Navy Antarctic expedition, enjoying their first few hours ashore in months, were killed Friday in an automobile accident here.

7 Nations Protest Bulgarian Action

LONDON, (AP)—A foreign office spokesman said Thursday seven countries including Britain and the United States, had filed a strongly-worded joint protest with the Bulgarian government against the behavior of its militiamen toward diplomats in Sofia.

The spokesman gave this account: "The British government took a very serious view of what it termed Bulgarian 'interference' in the internal affairs of the British mission in Sofia."

Britain, the United States, France, Sweden, Switzerland, Italy and Turkey complained individually to the Bulgarian government after being ordered to hand over their Bulgarian currency to the national bank.

Militiamen surrounded the seven countries' missions, apparently to see that order was carried out.

The foreign office spokesman said there was "no truth" in an allegation reported in the Communist Daily Worker Thursday that some British representatives in Bulgaria were involved in "widespread black market currency dealings."

The foreign ministers agreed to take up Saturday the thorny questions of displaced persons and territorial reorganization of Germany.

Meanwhile prospects dimmed for Big Three talks concerning the Chinese crisis, with China present, despite Russian insistence. An authoritative source said China was not likely to agree to participate.

(In Nanking, the foreign office announced refusal to participate.)

The Chinese manoeuvre, starting with Molotov's written request for such conference Thursday night, shared keen interest among the western delegations with an Ivestia editorial which, in the first Russian reaction to President Truman's message about Greece and Turkey, virtually accused him of breaking United Nations obligations.

Marshall also told the council: "Eighty of 117 war production plants in the American zone of Germany are 100 percent liquidated."

2. The United States now holds only 13,000 German prisoners of war, mostly in Italy, while 15,000 more are rapidly being discharged in the American zone of Germany.

Foreign Minister Molotov announced that figures on prisoners of war held by the Russians would be circulated among the delegations Friday night.

The foreign ministers agreed to take up Saturday the thorny questions of displaced persons and territorial reorganization of Germany.

Ask Price Floor For Sugar Beets

LETTERIDGE, (CP)—Several important changes in the general plan under which sugar beets are grown in Alberta were demanded here Wednesday at the 23rd annual meeting of the Alberta Sugar Beet Growers' association.

Among the major demands were: Establishment of a minimum price of \$13 a ton for beets, by a federal government subsidy, if need be.

Authority to plow under 1947 beets, in the case of farmers unable to secure labor, without jeopardizing beet contracts for 1948.

Payment of increased prices on beet deliveries in excess of 300,000 tons a year.

Protest Firing Of Coast Police

VANCOUVER, (CP)—Action of the police commission in demoting or dismissing 23 members of the police force has brought condemnation from two organizations.

Gordon S. Scott, counsel for the Police Federal association, issued a lengthy statement Wednesday night charging that Vancouver's three-man police commission had "set themselves above the law."

The association asked that the men be given a fair trial.

The B.C. executive of the Canadian Legion, charging that "star chamber method" were used, also urged that the men involved be given "fair and just treatment."

Alberta Acreage Valued at \$21

By H. R. Hardy

OTTAWA.—The average value per acre of occupied farm land in Manitoba tops that of Manitoba's two sister provinces, Alberta and Saskatchewan, by a considerable margin, according to figures supplied Thursday by the dominion bureau of statistics.

Average value per acre of Manitoba occupied farm land for 1946, is given as \$25, as against \$19 for Saskatchewan, \$21 for Alberta, and an average for all provinces of \$32.

British Columbia farm land is the most expensive at \$70 an acre, while the \$19 per acre value for Saskatchewan is the lowest of all provinces.

A survey of farm land values for 12 specific years during the period 1910 to 1946 reveals that the value of land has fluctuated greatly over the years.

In Alberta the range was: 1910-\$24; 1920-\$32; 1930-\$24; 1935 to 1941 inclusive-\$16; 1942-\$17; 1943-\$18; 1944-\$19; 1945-\$20; 1946-\$21.

U.S. Gives Norway \$50,000,000 Credit

WASHINGTON, (AP)—The export-import bank Thursday announced the signing of a \$50,000,000 credit to Norway.

Refinery Equipment For Russia Refused

WASHINGTON, (AP)—Chairman John Taber said Thursday the house of representatives appropriations committee has rejected a state department request for authority to send \$25,000,000 worth of oil refining equipment to Russia.

"We can't do such a thing; that's appeasement," Taber told reporters.

6 Newfoundlanders Will Be Sent Home

HALIFAX, (CP)—Six Newfoundland fishermen, who arrived here to go fishing, were placed in the detention barracks of immigration headquarters Wednesday night pending their return to Newfoundland.

Officials said they would be sent back to their homes because they could not comply with the regulations governing their entry into the country.

They had come to Halifax to go fishing but, because of the Canadian Fishermen's union (T.L.C.) strike, operations were at a standstill and their entry had to be refused.

Tumult Disrupts French Session

PARIS, (Reuters)—Tumult broke out in the French national assembly Thursday when the debate on Indo-China was resumed. President Edouard Herriot suspended the session.

Former Premier Paul Reynaud was reading from an official report alleging that the Viet Nam leader, Bao Mai, was responsible for the assassination of Frenchmen in Indo-China when right-wing deputies shouted:

"He is there in the gallery. Close the doors and arrest him."

Communist deputies shouted in protest and turning to the gallery shouted:

"Stay where you are."

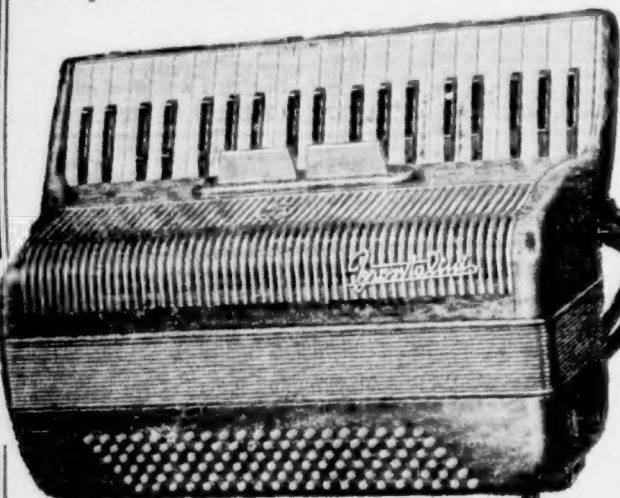

Bao Mai rose in his seat in the gallery, smiled and bowed then sat down again.

Confusion reigned for some minutes until Herriot suspended the debate.

COMPTROLLER DIES
REGINA, (CP)—Col. Stephen Bell Nelles, 77, for 20 years comptroller of Regina, died in hospital here Wednesday after a short illness.

Claims Solution Of Brutal Slaying

LOS ANGELES, (AP)—Inspector Norris Stensland of the sheriff's office announced Thursday "apparent solution" of one of four brutal slayings of women in Los Angeles and vicinity in the last two months.

He said Myron Funk, 33, foundry moulder of nearby South Gate, signed a statement admitting he killed Mrs. Mae Lorena Preston, 46, also known as Mae Lund—a friend of his and of his father, Frank Funk, 52, a cement contractor.

The father and son had been held since Tuesday night on suspicion of murder but Frank Funk was released early Thursday. The semi-nude, strangled body of Mrs. Preston was found Tuesday.

May End Legal Ban Against Divorce

COLUMBIA, S.C., (AP)—The legislature gave final approval Wednesday to a proposal for a popular vote upon rescinding South Carolina's 52-year-old constitutional ban against divorce.

Both houses approved a joint resolution providing for a referendum in the 1948 general election. If the voters favor the change, it must be ratified by the 1949 legislature.

Divorces would be permitted upon grounds of adultery, physical cruelty, desertion, and habitual drunkenness.

South Carolina is the only state without a divorce law.

Conservatives See British Election

LONDON, (CP)—Harold Macmillan, wartime cabinet member and aide-de-camp at Government House at Ottawa after the First Great War, Thursday was elected president of the Conservative National Union and immediately warned the party to be ready for an election at any time.

"The election may come like a thief in the night," he said at the annual meeting, after he had denounced what he called labor government failures.

Other Conservative and Liberal speakers have warned in recent addresses that the Labor administration may call an election soon, although Labor spokesmen have denied it.

Coast Will Get Cellulose Plant

NEW YORK, (CP)—Celanese Corporation of America announced Thursday it had completed negotiations with the British Columbia government for the construction of a \$15,000,000 plant on Watson Island, B.C., with capacity of producing from 200 to 400 tons of purified cellulose for chemical purposes.

Harold Blanche, Celanese president, announced that Celanese Corporation has purchased outright from Canadian authorities, 211 acres on which the factory will be erected including the former United States army base deep water docks at Fort Edward, B.C. near Prince Rupert.

Australia has adopted a Scotch type vessel as best for its merchant fleet.

COOKS **COMPLETE MEAL** ALL AT THE SAME TIME WITH **ONE ELEMENT!**

IMAGINE! You can now cook everything efficiently, economically and easily—even in small quarters—with ONE COMPACT, COMPLETE PLUG-IN COOKING APPLIANCE! It's the NEW MOFFAT "HANDI-CHEF" WITH OVEN AND GRIDDLE!

To the now-famous "HANDI-CHEF" . . . Moffat engineers add the most radically-designed oven you've ever seen. Functionally designed in round, "bell-shape", this lightweight aluminum oven incorporates the principle of heating only the minimum amount of space required for efficient, economical cooking. YET IT'S LARGE ENOUGH FOR CHICKENS, PIES, CAKES, AND EVEN 5 1/2 LB. ROASTS. Note—oven has full-view glass

window, full-size temperature indicator and "cool-grip" plastic handle. Complete operating instructions enclosed.

Sturdy aluminum griddle sits firmly over "handi-chef's" unique tubular Inconel element. This griddle absorbs heat rapidly and distributes it evenly for best baking results. Doubly useful for steaks and pancakes! ALSO INCLUDED—"3-in-1" grid" to make golden toast above or below element—and "Bake-a-Roast" double-duty aluminum pan for roasting or baking.

Full-course meal or snack—"HANDI-CHEF" COOKS EVERYTHING! Bachelor apartment, rumpus room, porch or cottage—"HANDI-CHEF" COOKS EVERYWHERE!

Guaranteed for Twelve Months.

Rule C.P.R. Show Mail Cost Data

OTTAWA, (CP)—The board of transport commissioners yesterday ordered the Canadian Pacific Railway to produce figures on the cost of operating its mail service, following an argument on the point at the railway freight rate inquiry.

Counsel for the provinces and railways had clashed over the issue Wednesday, with the provinces demanding the material and the railways declaring it was irrelevant to the investigation.

Chief Commissioner J. A. Cross ruled the C.P.R. should furnish cost data it presented to the federal government in 1939 in support of an application for higher mail rates, and also cost studies it had made on its 1945 mail operations.

W. E. Allison, manager of the railway's mail and baggage department, had testified the 1939 survey indicated the mail branch was "making ends meet."

Before testimony resumed Thursday, figures on Canadian Pacific Express company earnings for January were introduced, showing they had risen by \$31,900 from January, 1946.

Total earnings for January, 1947, were \$1,321,000, compared with \$1,289,000 for a year previously. In eastern Canada, revenue dropped \$4,300, while it rose \$36,000 in the west.

Earlier in the inquiry, C.N. Ham of Toronto, traffic manager of C.P. Express, had testified his company estimated its 1947 revenues would drop by about \$1,000,000 from 1946. He was asked for the January figures by M. A. MacPherson, Saskatchewan counsel.

S. J. W. Liddy, assistant comptroller of the C.P.R., was called to the witness stand, and indications were he would be under examination for several days on financial aspects of the C.P.R.'s case.

Manitoba Budget Sets Record High

WINNIPEG, (CP)—Expenditures of \$29,405,000 for the fiscal year 1947-48, a record high and an increase of \$9,363,000 over the current year, were contained in estimates tabled in the Manitoba legislature Thursday by Premier Garson in his capacity of provincial treasurer.

Because of a change in the province's fiscal year from April 30 to March 31, the 1947-48 estimates, almost double the prewar 1939-40 one of \$15,788,000, are for an 11-month period.

The public works department received the largest grant, \$6,762,000, an increase of \$4,048,000, including \$2,837,000 for construction and improvement of provincial highways, bridges and culverts for which no money was set aside last year.

Education followed with \$5,162,000, a gain of \$1,961,000 and health and public welfare estimates were \$5,350,000, an increase of nearly \$1,000,000.

The increases in the health and welfare departments included additional provision of \$320,000 for recipients of old age and blind pensions.

70,000 Basutos

Welcome Monarch

ABOARD ROYAL TRAIN, BASUTOLAND, South Africa, (Reuters)—More than 70,000 wildly-cheering, dusky Basutos greeted His Majesty the King Wednesday at the greatest "pilgrimage" (national gathering) ever held in Basutoland.

The meeting coincided with Mosheh Day—a Basuto national holiday in honor of the great founder chief of the Basuto nation.

The King invested Chieftainess Mantsebo with the Order of the British Empire.

When Princess Elizabeth and Princess Margaret inspected 400 Basuto native Girl Guides they noticed a separate busload of guides at the side of the grounds.

When told they were lepers who were not allowed outside the bus, the princesses went over and walked around the bus a few feet from the young lepers watching through the windows.

Tears were observed in the princesses' eyes as they waved goodbye.

Decision Delayed On Pacific Isles

LAKE SUCCESS, N.Y., (AP)—The United Nations security council delayed a decision on the Japanese-mandated islands in the Pacific Wednesday after New Zealand and India came forward with surprise requests to be heard in debate.

The appeals were approved quickly and resumption of discussion was set for next Monday. At that time Canada, the Netherlands and the Philippines, other members of the Far Eastern commission not sitting on the council, also will be given the opportunity to speak.

Requests for extended hearings came just as it appeared the council was ready to approve an American proposal to take over the Marshall, Caroline and Marianas chains in a "strategic area" trusteeship under sole United States administration.

Withdraw Charges Of Eldorado Fraud

TORONTO, (CP)—The crown Wednesday withdrew charges that Carl French and Marcel Pochon, conspired to defraud Eldorado Mines, Ltd., now a crown company, of a quantity of radium and \$500,000.

John J. Robinette, appearing as special crown prosecutor, obtained withdrawal of the criminal charges.

"Further investigations and explanations from the accused have convinced me and the department of justice that any wrongdoings by both the accused are of a civil rather than a criminal nature," he said.

Corporation Tax Applies to Co-ops

OTTAWA, (CP)—Finance Minister Abbott said Tuesday in the commons the five percent corporation tax being re-imposed by provinces entering into new taxation agreements with the dominion will apply to co-operatives in the same way as the War Income Tax act. He was replying to T. J. Bentley, C.C.F., Swift Current.

3 of Crew Injured In Boat Explosion

COURTENAY, B.C., (CP)—Three fishermen suffered serious burns in a fire on board a fishing boat in the Courtney river on Vancouver Island Wednesday when the main gas tank caught fire and exploded. Hospital authorities at Comox, B.C. where the men were taken reported Wednesday night that the condition of William Bailey of Coal Harbour, N.S., was "dangerous." Condition of the other two, Roy Fleming of Vancouver and A. O. L. Johnson of Courtenay, B.C., was described as "good."

Alaska Highway 'Spying' Probed

OTTAWA, (CP)—R.C.M.P. Headquarters said Thursday they had investigated "various reports" of espionage activities on the Alaska highway during the war but that none of them had ever proved a link with a Russian network of agents in Canada.

Police said that all such reports were probed although "none of them ever amounted to anything."

They were commenting on the statement in Edmonton by W. J. McLellan that he had "valuable information" about espionage activities on the highway in connection with the Canadian spy trials. McLellan is serving a sentence on charges of false pretences.

Police said his statements would be investigated.

New Land Policy Announced for B.C.

VICTORIA, (CP)—A seven-point land settlement policy restricting use of land in British Columbia to suitable areas, was announced in the legislature here Wednesday by Lands Minister Kenney.

"In the past settlers were permitted into remote areas and then clamored for roads and schools," the minister said. "Today abandoned homes and school houses bear mute evidence of lack of supervision and advice."

He also announced that an amendment to the Petroleum and Natural Gas act to aid in development of B.C. resources would be presented during the present session.

Main points in the land policy were:

1. Restriction of settlement to suitable areas.

2. Division of suitable land into areas large enough to allow a reasonably profitable return with its use for agricultural purposes coordinated with other means of revenue such as wood lots, trapping, fur farming and "dude ranching."

3. Settlement preferences to veterans.

4. Co-operation with the dominion government's land reclamation and irrigation schemes.

The government had completed soil surveys of some 3,000,000 acres in B.C., the minister revealed. Surveys during 1947 would probably be concentrated in the Peace River district.

The BAY'S

FUR COAT LAY AWAY PLAN

What Is It?

A succession of deposit payments throughout Spring and Summer applied on the cost of your choice.

Deposits will hold your coat in our modern storage vault until Fall or Winter at which time purchase arrangements are made. Pay cash or take advantage of the popular budget plan.

Why Do It?

It enables you to take advantage of our early Spring prices applying on our complete assortment of new 1947 styles.

Without tying yourself financially all Summer, your deposits will hold your coat and give you a substantial payment on your coat in the Fall.

When Do It?

The sooner the better; the sooner the "Parade of Deposits", the larger the accrued amount by the time you want to take your coat out. You get full advantage of usually lower Spring prices!

How To Do It?

Come to the BAY'S Fur Salon, Second Floor, and choose your new coat from the complete assortment of your favorite types of fur. Pay a small deposit now and continue your deposits through Spring and Summer.

But!

Don't delay, choose the label that denotes the finest in pelts, workmanship, and above all, the unconditional guarantee of wearability, durability and beauty of design.

Fur Fur Salon, Second Floor

That Is That

Parliament decided on Wednesday that it is not going to oust the Mackenzie King Government. Each of the three opposition groups brought in a motion declaring want-of-confidence. All three were defeated. The votes were, respectively, 138 to 84, 211 to 13, and 168 to 26.

This clears the air. However little any of the groups may like the Government, it likes the others less. As against all possible alternatives, the members by huge majorities declared that the government is to carry on. Any coalition of the opposition contingents is out of the question. They are more hostile to each other than they are to the ministry.

This point settled, parliament can now get to business with hope of making reasonable progress. And the country is freed of any confusion or uncertainty that may have existed because of the small party majority of normal Government supporters. The votes wash out any prospect of an early election, and set at rest any apprehensions of a drastic change in public policies.

Here's Hoping

Around Edmonton there is said to be 18 inches of snow on the level. Shovel-wielding householders can easily believe it. Delivermen, truckers and others who have spent part of the winter bucking drifts and getting out of ditches on streets and country highways have no doubts about it, unless a suspicion that the official measuring-stick was made by some optimist.

There is interest in knowing that this is an abnormal depth of snow for this district at a time when spring cannot be far away. It is not only casual interest, or the kind inspired by a yen for new records. There is very practical importance in the fact. That snow is hardened water. If it were freshly fallen it would amount to 1.8 inches of water all over the ground and the roofs of buildings. But this isn't fresh snow. It has been accumulating for weeks, and is packed down. The amount of water it will yield when it melts is therefore ineffectual. Perhaps 2 inches would be nearer the mark.

That is a lot of water. It works out to 7,260 cubic feet of water per acre. Or something more than 220 tons per acre, if weight is preferred. Or upwards of 1,200 cubic feet on a 50 foot town lot, equivalent to 38 tons or so—of water.

The town householder has an obvious reason to join the farmer in hoping that the thaw will be gradual, so the water content of the snow will soak into the ground. Otherwise flooded basements and street freshets are in prospect.

No Reason to Change

Members of the legislature decided there was no solid reason why residents of Alberta cities should have to journey to registration offices and record their names, in order to be able to vote at provincial elections. The proposal was therefore abandoned, and enumerators will go from house to house, as in the past, jotting down the names of qualified voters.

The enumeration system has been used in Alberta, for federal or provincial purposes, for upwards of fifty years. It has stood the test of time, and the more severe test of partisan tactics, as well as any method of making up voters' lists could be expected to do. If names have occasionally been improperly left off the lists, or improperly added, these occurrences were due to oversight, misunderstanding or dishonesty—against which no system can be completely proof.

From the voters' view-point the enumeration plan is more convenient than any other arrangement could be. He doesn't have to do anything to get his name on the list but answer a few questions when the enumerator calls—and afterward take a glance at the posted list to see that the name is there. The onus of compiling a correct list is on the officials, not the voters.

Under a registration system it would be the other way about. The voter would have to hunt up the registration office, and the officials do nothing but put down the names of so many as took the trouble to do this.

It is probable there would be a smaller turnout of voters on polling day under this plan, and any arrangement that would encourage still more Alberta voters to stay at home on election day would be both superfluous and a mistake.

Up to Washington

The United States is abandoning its traditional policy of aloofness and assuming the responsibilities of a world power. That is the meaning of the proposal to extend aid to Greece and Turkey, of the jurisdiction that is sought over the former Japanese-mandated islands in the Pacific, of the long-to-be-continued participation in the oversight and direction of the affairs of central Europe. And of deep concern of the government at Washington that Britain regain its economic strength and political prestige.

This sharp reversal of historic policy is not being made voluntarily, nor even willingly. Those who suggest an "imperialistic urge" are talking nonsense. Circumstances which Washington cannot control are making it no longer safe for the republic to try to live alone or to confine its international interest to this continent or this hemisphere. What may happen in Europe or the Orient has now a direct bearing on the safety of United States citizens in their own homes.

There is another new factor. Britain can no longer police the trouble areas and protect weak peoples in far corners of the seven seas. Some other power will take on that role. There are only two powers strong enough to do so, One is the United States. The other is Russia. Unless the United States supports the far outposts of democracy, these will be undermined by totalitarian propaganda and ultimately fall into the orbit of Moscow.

President Truman was very frank in saying this to Congress on Wednesday. He only said what is obvious to every observer of world trends. But heretofore the fact has not been stated officially in such open terms. That emphasizes the gravity of the situation. Diplomatic language can no longer be allowed to obscure the reality. The people of the United States had to be told plainly what their position is—whatever may be the sound and fury stirred up in the Moscow press.

The bold truth is that unless the United States is willing to take on the duty of stabilizing international affairs in the interests of democracy these will be thrown into progressive confusion and turmoil, as they now are in eastern and southern Europe, ending in a creeping

advance of totalitarian influence and authority on all fronts. This duty Britain is no longer able to discharge, for the time. It is up to Washington to hold the lines for free civilization in the days of peace, as Britain held them in the black days of 1940 and 1941.

Squeezed Dry

The building of Utopia in Saskatchewan, like many more tangible construction ventures, has reached an impasse. Mr. C. M. Fines, the provincial treasurer, confesses that the program of social services and economic development must halt for want of sources of revenue. Mr. Fines says, in effect, that everything that can be taxed has been taxed until it can bear no more.

It is an interesting outcome of the first Canadian experiment in what has been the theme of much platform oratory. The theory has been urged that more and better amenities of life would be provided, and economic development generally accelerated, if the business of production and distribution were snatched from the hands of private enterprise and the profit motive removed; that the condition of the ordinary man would be made better at the expense of grasping corporations and greedy capitalists.

But the provincial treasurer in Saskatchewan seems to have come to the conclusion that this process cannot go on indefinitely. It may or may not be significant that Saskatchewan is the only province which has shown a decline of population since the war; much industry, it seems, has withdrawn to more friendly fields, and its workers have followed their transplanted jobs.

The conclusion to be drawn is that if all the promised blessings of Socialism are to be had it must be at the expense of those who would ultimately pay in the long run in any event—the worker and the farmer.

Congress and World Trade

When he spoke at Waco, Texas, President Truman had in mind the international trade conference that is to be held in Geneva a few weeks hence. That the speech was carefully prepared for the purpose in view is also a matter of course. It repeated and emphasized the conviction often expressed by Mr. Truman's predecessor in war days, that a free exchange of products among all peoples is desirable, and even necessary, if international friendship is to be cultivated and all nations to acquire a vested interest in the preservation of peace.

Mr. Truman has the disadvantage of not knowing how far Congress will back him in this policy. For Congress is controlled by his political opponents, who have also been the historic champions of exclusive tariffs and rigidly restricted foreign trade. How far the Republican Congress will implement the policies of the Democratic President is more than a question of national politics. The answer could, and likely will, make or mar the outcome of the Geneva conference.

The stupendous resources and colossal capital of the United States give it a commanding position in world economics. If it sets a course for freer trade other nations could not afford to refuse to respond. If it should decide to keep the trade channels clogged, all other countries will suffer. President Truman's appeal to other nations is equally a lead for Congress. Unless Congress accepts the lead, the appeal to other nations must fail.

A Labor member says Britain will never again be a military power of the first order. If what all we fought for is realized she will never again need to be a military power of any order.

Prime Minister Attlee says a war between Britain and the United States and Russia is inconceivable. Now if it could only be made unthinkable and unmentionable that would be really something.

Looking Backward

From The Bulletin Files

1887: 60 Years Ago

Archbishop Tache is seriously ill in Montreal. The corporation of Dublin refused to send a congratulatory message to the Queen on her golden jubilee.

Owing to snow slides having destroyed a couple of bridges on the CPR in the mountains the line is not open to the coast.

Upwards of 200 arrests have been made in consequence of an attempt upon the life of the Tsar by the use of dynamite bombs.

Thirty persons were killed and 130 injured when a Boston and Providence train went through a bridge.

1897: 50 Years Ago

Contract for a fast Atlantic service has been signed by the government.

Crown Prince Constantine left Athens for Macedonia with 4,700 troops.

1907: 40 Years Ago

Ottawa. The railway commission gave judgment ordering the CPR and GTP to reduce passenger fares to three cents a mile. Other roads are to be notified immediately and requested to conform.

A dredge is being built at Athabasca Landing which will be used to remove gravel bars and boulders which interfere with navigation on the Lesser Slave river.

1917: 30 Years Ago

Washington: With the announcement that three United States merchant ships have been sunk by submarine attack, though unarmed, it is unofficially admitted here that a state of war virtually exists between Germany and the United States.

Berlin: Count Zeppelin died.

1927: 20 Years Ago

Estimates brought down in the legislature call for \$15,856,407 on general revenue account. Capital expenditure is placed at \$6,553,510. A surplus of \$46,000 is expected on revenue account. One new tax is introduced—five percent to be taken hereafter from the takings of parimutuel machines.

Vancouver Motor Association has petitioned the British Columbia government to extend its highway system to Jasper Park.

1937: 10 Years Ago

Ottawa: Deficit of the Canadian National Railways is placed at \$43,309,303, a betterment of \$4,118,076 over the deficit for last year.

Halifax: The German training ship Schlesien is visiting this port.

Shanghai: British efforts blocked an attempt of Japan to secure an air base at Macao, Portuguese colony off the coast of China.

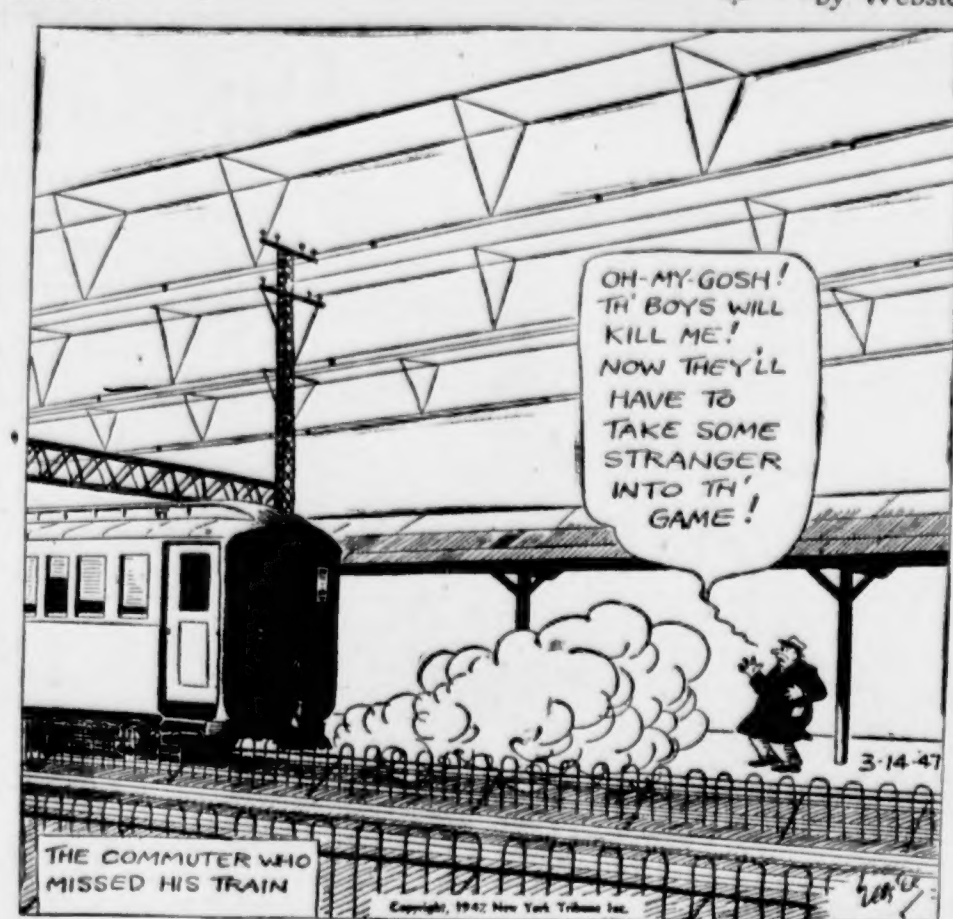

London: Commenting on the coming Imperial conference, the Times said Canadian soldiers are unlikely ever to come to Europe again to fight.

Edmonton had a snow-fall during the night and early morning, amounting to 1.9 inches.

Today's Text

But I say unto you, Love your enemies, bless them that curse you, do good to them that hate you, and pray for them which despitefully use you, and persecute you.—Matthew 5:44.

BRIDGE

Who Has Sugar?

BY ELMORE PHILPOTT

Many readers have written about sugar. One says "why don't you do a job on the world sugar combine like you did on the world wool hold-up?"

One reason why I have not yet done so is because what I have learned makes me ashamed of our own country, Canada.

The international food board allotted us enough cane sugar to bring our total ration up to the U.S. level. But that was contingent upon us raising in Canada enough beet sugar to keep our sugar beet factories busy.

Here is how badly Canada fell down on the job in 1946.

	Areaage allotted.	Areaage grown.
Alberta	30,300	30,300
Ontario	35,000	23,275
Manitoba	15,000	11,500
Quebec	9,700	2,500

CONGRESSMAN Roy Woodruff of Michigan writes in the Weekly Statistical Sugar Trade Journal to ask:

"Is the administration at Washington letting us carry the load for other nations?" PHILPOTT

He quotes a speech by J.H. Blackmore of Alberta in the Canadian House of Commons dealing with actual closing down of one sugar beet factory in Ontario and threatened closing of another.

Mr. Blackmore says he is astonished at Ottawa indifference to the strangulation of our beet sugar industry.

ANOTHER reason for the lack of sugar in Canada is that the whole world is suffering from the deadlock between the Dutch imperialist government

and the theoretically "free" Indonesian Republic.

The Dutch imperialists were compelled to "recognize" Indonesian independence on the main islands of Java and Sumatra. But they still maintain—till time of writing—and ironclad embargo against outside trade with Java.

There are literally millions of tons of sugar and rubber held up in Indonesia because the Dutch imperialists still have a strangle-hold on the seas around Java.

For weeks past a U.S. owned liberty ship has been trying to blast out of the Dutch embargo on exports from Java. Hence vast stores of sugar, rubber, spices and quinine are held up in Java.

Incidentally, there has been an ironclad world cartel on quinine for decades past. The Dutch royal family have a considerable stake in this business.

A WOMAN who formerly suffered from tuberculosis writes me about the new drug "streptomycin."

She refers to a United Press dispatch from Oakland, California, dated February 28 which describes a sensational "cure" of a type of tuberculosis formerly held hopeless. She asks:

"Why is the streptomycin so expensive? Why did this boy's father have to 'wangle' the drug from an army camp to save the young marine's life? I was able to recover due to excellent care I received in Sanitarium. But others are less fortunate. While in the San I talked with a woman with two young sons. She was very ill. She said 'I don't care what they do to me, so long as I get better.' (We had been discussing surgical cures.)"

Codifying Civil Rights—IV

BY J. H. GRAY

Ottawa: Of all the rights of citizens in a democracy, none is more assiduously practiced or more highly prized than freedom of speech. In essence, this is the basic freedom in any democracy for freedom of religion and freedom of the press are but extensions of freedom of speech. Yet while it is guaranteed by the Constitution of the United States, it has no statutory basis in either Canada or the United Kingdom.

Legally, the freedom of speech which all of us cherish is a negative quality. It is the end product of a thousand years of the passing of laws and the interpreting of laws. It might be defined as utterances of any kind which are not forbidden by law.

NONE OF this will be new to lawyers, or to laymen who think seriously about the subject. But it is useful to define, in any discussion of a bill of rights for Canada, just precisely what we are talking about. It is important, too, to recognize that no Canadian accused of any crime can go into court and plead: "I am innocent of the offence charged because this law violates my fundamental right to free speech." He will be unable to point to any law of the land which gives him this fundamental right.

To make a constitutional argument in Canada, the citizen must try to demonstrate that the law in question is outside the authority granted to the Dominion, or to the provinces, by the British North American Act. If this cannot be done, the right to freedom of speech will likely cease to be a talking point.

THIS DOES NOT mean, however, that citizens do not enjoy substantial rights of freedom of speech. English common law

secures that no one shall be punished except for statements proved to be a breach of the law. Dicey, in his The Law of the Constitution, quotes with approval this definition of the right of freedom of speech:

Our present law permits any one to say, write and publish what he pleases; but if he makes bad use of this liberty he must be punished. If he unjustly attacks an individual, the person defamed may sue for damages; if, on the other hand, the words be written or printed, or if treason or immorality be thereby indicated, the offender can be tried for misdemeanor or either by information or indictment.

The laws of libel are strict and there are cases where people have been convicted for violation of the law for making statements which were true.

NO OTHER ASPECT of individual freedom of speech is more highly prized than the freedom which Canadians have, and use, to criticize their government. Unlike most other freedoms, this one has force of law. But it is a law by right of citizenship. It stems from the fact that there is a law against sedition, or more precisely, against seditious libel and seditious conspiracy.

What, then, is sedition? As good a definition as any can be found in the eleventh edition of the Encyclopedia Britannica—an attempt to disturb the tranquillity of the state. Gradually, through the years, this definition has been so narrowed that it now covers simply the use of defamatory language to stir up public discontent, or to advocate the overthrow, or conspiracy to overthrow, government by force.

Laws against sedition go back to at least the Romans and probably even before that. Thus there have always been laws against sedition. But these laws have been continually diminished in severity of interpretation by the pressure of public opinion. Statements which might have resulted in the speaker being hanged for treason 300 years ago are no

heard yesterday she died just before Christmas.

"It is known that this drug is not a sure cure, and still in experimental stages. But if a case is desperate anyway, no harm could come from trying."

ONE OF THE most pungent letters I have received for some time comes from a spokesman for the short wave radio owners.

These are people commonly known to others as "hams." They not only have a magnificent hobby—but did wonderful work in wartime.

In a nutshell here is their kick: The short wave radio sets sold to the consumers of Canada bring in not only what is wanted but police calls, noises and about everything else in the ether.

There is absolutely no need for this. Any good electronic expert can remedy the defects in these sets. But the manufacturer should be compelled by public opinion to make them right in the first place.

He says: "Sets made even 25 per cent as good as those supplied to the armed services would be completely satisfactory."

My correspondent suspects, too, that there is a move afoot to force "hams" out of the air entirely—leaving everything to commercial interests. This may be the reason for manufacturing sets which bring in all sorts of unnecessary noises. For all short wave owners then wrongly blame "ham" senders.

Signed articles and columns on this page are the opinions of the writers and are not necessarily endorsed by the Edmonton Bulletin.

Democracy on Trial

By HARPER PROWSE, MLA

I doubt whether there are many people who believe that we live in "the best of all possible worlds" and that there is no room for improvement in our economic and social spheres. But I doubt, too, whether the capitalist system deserves all the abuse which has been heaped upon it by those who have been a great many inequalities. But whether these are due to inherent faults in the system, or to inherent weaknesses in human nature is a question which demands a lot of study.

There is no denying the fact that there are many faults existing in countries which operate under the capitalist system—so many in fact that today most people are agreed that government regulation and control of many industries, businesses and activities are necessary. Capitalism has been marked by the development in our societies of a great many inequalities. But whether these are due to inherent faults in the system, or to inherent weaknesses in human nature is a question which demands a lot of study.

THE FACT is that most nations and peoples who have operated under a capitalist economy have prospered and grown great. This is particularly true of the United States which is the most purely capitalist country in the world. Its people have the highest standard of living, they have more of this world's goods and more of the discoveries of science to make life more pleasant than any other people on the face of this globe. And what is more important, with all this they enjoy more personal freedom than any other people.

However, at the same time there are large sections of the United States where people live

in the worst type of slums and other places where poverty, ignorance and unbelievable misery and hopelessness are part of their daily lives. In other words in the United States we find concrete evidence of the inequalities which have developed under an uncontrolled capitalist economy. Today legislators in that country, as in every other country, are trying to remove the inequalities.

In Russia there does not exist, according to reports, the same sharply defined inequalities. This is achieved there, however, by the simple method of imposing the same strict poverty on practically all sections of the population. Today Russia is trying to raise the overall standard of living. Our problem in our western democracies is to achieve the same effect by a "leveling" process by which we will raise the standard of the less fortunate classes by making the more fortunate contribute in the form of restricted freedom of enterprise and progressive income taxes.

OUR AMBITION is to provide all of our people with an opportunity of earning a decent living and at the same time being careful not to restrict freedom of individual initiative any more than is necessary to insure equal freedom for all. If the democracies can do this then they will survive. If they fail then it is certain that it will be only a matter of time until we discard our present system in favor of some other system, although there is no evidence to support the theory that any other system will be any more satisfactory than the one we now have.

The British Soldier

Winnipeg Free Press

When the United Nations reviews the Palestine problem the world will be able to pay tribute to the forgotten Tommy Atkins and his misunderstood and thankless task. There are many aspects of British policy in Palestine which call for censure than for sympathy and understanding.

Province of Quebec. The distributors have been charged with sedition in Quebec but no action has been taken against them in any other province.

Quebec also has the Padlock Law which has been used to curtail the political activities, and hence the freedom of speech, on members of the Communist party. No other province has felt it either useful or desirable to pass such a law.

HERE AGAIN is the problem of free speech comes back to the Canadian constitution. Under section 92 of the British North America Act, exclusive jurisdiction over property and civil rights within the provinces is assigned to the provinces. Thus while the right of freedom of speech is underwritten by the Canadian criminal code, it could in fact apply only to freedom to criticize the Canadian government. A provincial government could seriously curtail the rights of freedom of speech within its boundaries. The proof of this is that it has been done.

(This is the fourth of a series.)

To Keep Preferred Tariffs Unless U.S. Lowers Walls

OTTAWA, (CP) — Canada will not be prepared to drop all British preferential tariffs unless the United States makes unexpected concessions in reducing import duties against Canadian goods, tariff experts here believe. They do not share the views expressed in the Australian house this week that preferences are doomed.

The instructions to the trade mission headed by Dana Wilgress, Canadian ambassador to Moscow, are a closely-guarded secret. The mission is en route to London where the situation will be discussed with other Empire countries before proceeding to the international trade talks next month in Geneva.

The United States is expected to press for drastic reduction, if not the entire elimination, of tariff preferences by which Commonwealth countries were given preferred treatment in each other's markets. The question will be how far the United States will be prepared to lower her tariff walls in return.

Action Said Unlikely
Tariff experts here do not expect the United States to go far enough to warrant Canada sacrificing the advantage of preferences in United Kingdom and Dominion's markets.

Anticipating that British preferences would be a point at issue in the coming international trade talks in Geneva, trade officials here made an extensive analysis of Canadian pre-war exports to the United Kingdom market.

This analysis, on a value basis, showed that 50 percent of the goods sold by Canada in the United Kingdom market in 1938 can hold that market today without the assistance of the preferential tariff. Of the remainder, roughly 15 percent might be lost but could easily be offset by moderate reductions in the United States tariff, thus sending these goods to the United States instead of the United Kingdom.

Preference Essential
This left 35 percent in which British preference is essential if Canada is not to lose her markets altogether. This includes products of the automotive industry, the electrical appliance plants, rubber goods and a long list of smaller plants.

The Canadian lumber business in the United Kingdom also is believed to require preferences once the world scarcity in lumber has been satisfied. This industry normally is under stiff competition from Russia and northern Europe.

A long list of canned vegetables, fruits and fish as well as fresh apples are claimed to require preferences to hold their markets in Britain.

WASHINGTON, (CP) — A state department official said there is no likelihood of the United States "inquiring" abandonment of the British preferential tariff without a substantial compensation, and even less likelihood of succeeding if such an attempt were made.

Regiment to Honor Colonel-in-Chief

CALGARY, (CP) — Princess Patricia's Canadian Light Infantry will observe the birthday anniversary of the colonel-in-chief, Lady Patricia Ramsay, on Monday, the unit's regimental day.

The detachment of the unit now in training at Whitehorse, Y. T., will also observe the holiday.

John Pullen has been appointed general freight traffic manager of the Canadian National Railways, succeeding George H. Fairhead, who has retired. A veteran of the First World War, Mr. Pullen has been with the C.N.R. since 1913, when he started as a clerk in the tariff bureau, Montreal.

U.S. Interested In Potash Strike

By Peter Inglis
WASHINGTON. — "Canadian farming methods may be radically changed" and the dominion may become an exporter instead of an importer of potash as the result of discoveries in Saskatchewan, according to the United States department of commerce.

In a report released Friday, the department says: "Very large deposits of potash over salt beds, extending 350 miles in a curved line running eastward from Regina to Radville and into North Dakota, have been discovered in drilling for oil."

It adds that "several Canadian companies are reported interested" in exploitation of the beds, which are in layers ranging from nine to 28 feet thick. The width of the seam is expected to be determined by drilling now going on.

The report notes that last year Canada imported \$5,000,000 worth of potash and this year's imports may pass \$4,000,000.

Vancouver Police Hunt Sex Maniac

VANCOUVER, (CP) — Police Friday sought a sex maniac who criminally assaulted the four-year-old daughter of an English war bride after kidnapping her from near her home Wednesday.

Lure of candy enticed the child into an automobile and four hours later, she was found on a downtown street. The child was first reported missing from a home where she was a boarder under the care of the landlady while her mother was at work. The little girl is under a doctor's care.

U.S. GENERAL DIES
CHICAGO, (AP) — Maj.-Gen. Frank Parker, who commanded the famous United States 1st Division in the First Great War and later served as head of the former 6th Corps area, died Thursday night.

Find Preventive For Tooth Decay

CHICAGO, (AP) — The Journal of the American Dental association advocated Thursday that all dentists apply diluted solutions of sodium fluoride to the teeth of their child patients as a means of diminishing tooth decay.

The Journal said the results obtained from experimental studies were such that "the use of directly applied fluorides by the dentist can be recommended as a general (preventive) measure."

It said editorially that considerable work remains to be done in determining the frequency of the applications and added that home use of fluoride solutions "may not be without dangers."

The treatment calls for four initial treatments for each tooth with applications renewed on an annual or semi-annual basis. Present evidence indicates the treatment is not ineffective in protecting teeth of adults, the Journal said.

Insurance Sales Record in Canada

OTTAWA, (CP) — The insurance business, following the general upward economic trend in the first full year of peace, swelled to an all-time high in Canada in 1946 with life insurance leading the parade.

The dominion department of insurance, releasing approximate figures on 1946 business, reported that \$1,393,532,967 worth of life insurance was effected in Canada during the year, an increase of 39 percent over the corresponding amount in 1945.

The total net life business in force in the dominion at Dec. 31 last was \$10,812,294,224, an increase of 10.9 percent over the equivalent 1945 figure.

Other significant advances in the field of fire insurance, automobile insurance, personal property insurance and even hail insurance combined to make 1946 the biggest insurance year in the dominion's history. Premiums were up correspondingly.

The department said that of the total life insurance effected in 1946, ordinary amounted to \$1,167,517,862, industrial to \$143,868,266 and group to \$82,136,539.

Of the total amount in force in 1946, ordinary amounted to \$8,213,044,358, industrial to \$1,362,447,955, and group to \$1,234,801,911. Canadian companies carried \$7,201,285,815 and British and United States companies \$3,611,008,408.

Total net business in force in Canada of Canadian fraternal societies was \$165,782,019, and of foreign fraternal societies, \$102,514,715, or a total for fraternal societies of \$268,296,734.

SATURDAY VALUES AT WOODWARD'S

B.C. Introduces Strike Vote Bill

VICTORIA, (CP) — Provisions for a compulsory secret strike ballot under government supervision and revocable check-off of union fees are contained in a bill introduced in the British Columbia legislature by Labor Minister Pearson.

The section relating to secret strike ballots would prohibit strikes or lockouts until a conciliation board had been appointed and its report submitted to a separate vote of the employers and the employees for their acceptance or rejection. It would also require that a 14-day period elapse after the result of the vote had been rendered to the labor minister.

Employers would be required to submit a written assignment of wages to a trade union or to an employees organization. Dues would be remitted to the union monthly.

Illegal strikes would render workers liable to fines up to \$10 a day for each day of the strike, and officers of trade union authorizing strikes to fines up to \$100 a day.

Employers causing lockouts contrary to the act would be liable to fines up to \$250 a day, and employers' representatives causing illegal lockouts to fines up to \$100 a day.

Asks Outlawing Lab.-Prog. Party

OTTAWA, (CP) — Outlawing of the Labor-Progressive party, creation of a distinctive Canadian flag and compulsory voting in elections were among moves sought of the federal government Thursday by the Canadian and Catholic Confederation of Labor.

Officers of the confederation, representing 65,000 workers in Quebec, met cabinet members and presented their annual brief.

Maintenance of price and rent controls, reduction in income tax, preservation of "provincial autonomy" in any national labor code and amendments to the Unemployment Insurance act were among other matters sought by the confederation.

Appoint New Head C.N.R. Department

MONTREAL — Appointment of Frank J. Stock as traffic manager of the foreign freight department, Canadian National Railways, was announced here Wednesday by John Pullen, general freight traffic manager of the system.

Mr. Stock entered railway service with the Grand Trunk at Ottawa in 1908 in the office of the district freight agent. He served overseas with the Canadian expeditionary force in the First Great War.

Stepping Off This Train Easy As Record Blizzard Hits Ontario Snow Belt

This scene is typical of the havoc created in Ontario's snow belt, stretching from Toronto north, east and west when the worst blizzards in 50 years snarled both road and rail transportation and isolated many towns and cities. This C.N.R. locomotive was drifted under deep, heavy

snow near Mount Forest, Ont., and men were gathering to dig it out by hand. Depth of the drifts is indicated by the fact that a workman is stepping off the locomotive, just behind the bell, onto a drift level with the top of the engine.

Poland Confused by Policy Of Great Powers in Germany

WARSAW, Poland, (CDN) — The Polish people and the Polish government are confused and alarmed by the rivalry they see developing among the Allied powers for the affection of the Germans.

For purely sentimental reasons it's difficult for a Pole, simply looking around shattered Warsaw, to understand why anyone should want to be particularly kindly to people who behaved as the Germans did here.

On a much more practical basis, the Poles resent the fact that each new concession to the Germans is taken almost literally from the mouths and pockets of the Polish people.

There are still some murmurings about the loss to the Russians of Wilno and Lwow, in the east, as part of the Potsdam and Yalta settlements. Most, however, are reconciled to this.

But part of the trade was that the Poles should receive from Germany large sections of Pomerania and Silesia, on their western borders along the lines of the Oder and Neisse rivers. So long as they lose one section, they will insist passionately on retaining the other.

Line Not Permanent
Now there are suggestions that this border on the west may not be a permanent one. Former Secretary of State Byrnes said as much at Stuttgart last September in a speech which has become almost a new charter for the Germans under American occupation. The Germans would like nothing better.

The Poles took one look at the farm lands they haven't yet been able to occupy fully, or to stock, and at the coal mines and industry of Silesia, which they are struggling to set again in motion. They reacted as a man.

The result has been to give tremendous impetus to the largest and most important colonization movement in postwar Europe.

Out Last Germans
Some 5,500,000 Poles will be moved into these "recovered territories" as they are designated here—when the program is complete. Industrial workers come first. By mid-summer

the movement of farm families will also be near its end. The last 600,000 Germans will have been shipped out.

To anyone who suggests that these borders are not permanent, the Poles will reply that the changeover is an accomplished act, and that any attempt to alter it again in Germany's favor will be impossible. In an impoverished country, a large government loan for rebuilding the western territories was over-subscribed almost immediately after Byrnes' speech to the Germans.

Soviet Position
The Russians have made the most of this confusion. Stalin said flatly, in a published interview, that he considered the Polish boundaries fixed permanently. Russians continue to tell the Poles privately that they can't depend on their western Allies. They use artfully every argument to wean Poland away from the United States and Great Britain.

More recently, however, the Russians also dropped a brick. They announced with much fanfare that rations would be increased in their zone of occupation in Germany, that industry there would remain at two or three times the levels proposed earlier, and that much of the consumers' goods, which Russia now collects as reparations, would go, in the future, to the Germans.

There was sentimental astonishment in Warsaw at this decision. There was also far more. At Potsdam, Russia agreed to pay 15 percent of all it collects from Germany to Poland as Poland's share in reparations. Poland has been receiving it in rugs, clothing, household furniture, dozens of items the country needs desperately. Now, presumably, this supply will be cut down so the Soviet Union can do its share of wooing the Germans.

By and large the Poles don't like it, and it's hard to blame them. (Copyright, 1947, Chicago Daily News.)

Burglar Telephones About His Crime

NEW WESTMINSTER, B. C. (CP) — A self-confessed burglar here believes in publicizing his crimes.

An unidentified man called a radio station here Wednesday night and reported he had just robbed the home of W. Economy in Vancouver of approximately \$200. Police in Vancouver said that no such burglary had been reported.

The informer called the station a second time and said the police were unaware of his crime because the house was unoccupied at the time of robbery. The radio announcer tried unsuccessfully to obtain the man's name to give him "a cash reward for reporting a news event."

A third call was received from the burglar Thursday, requesting that the money be given to charity or the robbed house.

A check with police revealed that Economy had reported theft of \$185 during his absence from his home.

Ship Seed Wheat From Maine Port

SAINT JOHN, N.B. (CP) — Confirmation of reports that 1,000,000 bushels of Canadian wheat will be shipped to Europe from Portland, Me., was received here from the department of trade and commerce at Ottawa.

Officials said one full cargo of about 300,000 bushels is being loaded at Portland and will leave for France in a day or two. Two other vessels, each taking about 350,000 bushels, will leave Portland for Belgium and Holland shortly. The wheat is of the seed variety for planting in the three countries.

Russian Villager Is 142 Years Old

LONDON, (Reuters) — A 142-year-old Russian, Vasily Sergeevich, a villager in the Kirgizia republic, is still hale and hearty and enjoys a good memory, Moscow radio reported Thursday.

His father lived 137 years and his mother 117, the radio added.

Six Are Wounded By Greek Rebels

ATHENS, (Reuters) — Six people were injured when guerrillas along a railway line in Thrace opened fire against the Drama-Alexandropolis express, it was reported Thursday.

Allow U.N. Group Enter Yugoslavia

ATHENS, (AP) — Dispatches from northern Greece said the Yugoslav liaison officer had notified the United Nations Balkan investigating commission Thursday that permission had been granted for one of its teams to enter Yugoslavia, from which the team had been barred Wednesday.

The commission was reported to have held an emergency session Wednesday night in which the United States, British and French delegates protested at what they termed "sabotage" of the commission's task.

RISKS BOTH WAYS

Father: "How do I know you are not marrying my daughter for my money?"
Sutor: "Well, we're both taking a risk. How do I know you won't go bankrupt in a year or so?"

Soviet Minister Relieved of Post

MOSCOW, (Reuters) — It was announced officially Thursday that Mikhail Saltykov, Soviet minister for the timber industry, had been relieved of his post. His ministry recently was criticized because of its failure to supply sufficient material for reconstruction and for export.

STETSON — THE WORLD'S MOST FAMOUS HAT

FOR 1947 -

It's SMART to Own an Olds!

Oldsmobile Series "98" 4-Door Sedan

Smart is the word for Oldsmobile's 1947 styling . . . the long, rakish lines . . . the attractive new colors . . . the over-all impression of quality and good taste.

And smart is the way you'll feel . . . once you drive a new Oldsmobile of your own. You'll enjoy the admiring glances that follow you down the street. You'll revel in the comfort and luxury of Oldsmobile's coil-cushioned ride. And above all, you'll find a new kind of deep-down satisfaction in the Oldsmobile way of driving . . . without shifting gears . . . without pushing a clutch . . . thanks to GM Hydra-Matic Drive.* This is the fully-proved, fully-automatic drive . . . the drive that does all the gear shifting for you, from first through a special economy fourth speed . . . the drive that takes the clutch pedal right out of the car!

Three complete lines of cars to choose from . . . every one a General Motors value . . . and every one a smart choice for 1947!

Gums ever bleed even a tiny bit?
take care—it may mean
GINGIVITIS

4 out of 5 may get this enemy of firm gums and handsome teeth!

Tender, bleeding gums are often the first signs of gingivitis—a mild gum inflammation which may lead to pyorrhea with its shrinking gums and loosening teeth which only your dentist can help. See him every 3 months. Then do this at home—to help gums be firmer—teeth naturally bright and sparkling—massage your gums and brush your teeth twice daily with Forhan's Toothpaste—the remarkable formula of Dr. R. J. Forhan—made especially for both massaging gums to be firmer and polishing teeth to their natural bright lustre and sparkle. At all drug and dept. stores.

NO HARSH ABRASIVES IN FORHAN'S!

Wheat Board Bill Passed in House

(Continued from Page 7)
Cassette, L'Union des Electeurs member for Pontiac.

Goes to Senate
The bill now goes to the senate and, if there are no amendments it will receive royal assent and become law.

Continuing his afternoon speech until after 5:00 p.m., Agriculture Minister Gardiner declared that Britain had not tried to "beat the Canadian farmer down" in his price. Britain had agreed that there should be no ceiling on what she might ask for in the last two years of the agreement.

Mr. Caldwell said no one who had sat in at the international food conference could be under any illusion but that the agreement with Britain was the "only kind of agreement at this moment" which would adequately protect the Canadian farmer. But he did not think it proper to put the proceeds of the 1945 crop in to the money pool. However, his party did not want to "play into the hands" of people who, for economic reasons, were "desirous of destroying" the measure.

Mr. Gardiner explained that the 1945 payments were not quite out, that the 1944 payments would start shortly and that it would be a "physical impossibility" to begin the 1945 payments earlier than late in 1946. He did not think much advantage would be gained by earlier payments.

Tells Sum on Hand
Providing the house with information demanded by the opposition on a number of occasions, Hon. J. A. MacKinnon, minister of trade and commerce, stated there was on hand today with the wheat board, from the 1940, 1941 and 1942 crop accounts, the sum of \$5,000,000. Every effort was being made to get the money into the hands of the rightful owners as soon as possible.

From the 1943 crop account there was a balance of \$6,000,000 on hand today. From the 1944 crop account, subject to final accounting there was \$61,000,000. In the 1945 crop account there was \$36,000,000.

Asserting that the Wheat Board act was "absolutely necessary" to carry out the United Kingdom wheat agreement, Mr. MacKinnon said that he knew that "certain estimable and amiable gentlemen from the city of Winnipeg" had come to Ottawa with the objective of ruining the legislation. That opportunity had been lost when the members of the C.C.F. party and the Social Credit party announced they were opposed to the bill going to the committee on agriculture and colonization.

Bracken Wins Protest
"Now it is my opinion—and possibly I might be blamed for imputing motives—that this attempt to send this legislation back to the committee of the whole is merely another attempt, coming from the same quarter, to embarrass the government with this legislation," Mr. MacKinnon said.

"Mr. Speaker," protested Mr. Bracken, "I rise to a question of privilege. The honorable gentleman is suggesting improper motives."

There were shouts of "withdraw." Mr. Smith said that the fair inference of Mr. MacKinnon's words was that "the leader of the opposition was operating as a tool for gentlemen from Winnipeg."

Mr. MacKinnon explained that he had made no imputation against Mr. Bracken or against any member of the house. There the matter rested.

Widows of Nazis To Face Charges

MUNICH, (AP)—The society women of the Nazi hierarchy, the widows of Hitler's top henchmen, Friday face a series of de-Nazification trials like their husbands before them.

The women who set the fashions of the Nazi regime now are for the most part reduced from riches to rags, from huge mansions to unheated flats and cottages.

Heading the list is Frau Hermann Goering who lives with her daughter at Neuhaus. Officials said her indictment as a "Nazi profiteer" will be handed to the former actress next week.

Next is Frau Hans Frank, widow of the former governor of Poland who was hanged at Nuernberg. Officials said she will be tried in Starnberg as soon as her indictment, also as a "Nazi profiteer," is completed.

Others to face trial are Frau

Edmonton Soldier Patient Makes Contribution To Red Cross

All Edmontonians are being asked this week to support the Red Cross society's campaign for funds. Anyone familiar with the great work done by the Red Cross has no hesitation in contributing to the society's funds, as indicated in the above picture. This photo,

taken in the Col. Mewburn wing of University hospital shows Pte. Robert Delatin Wear, of Edmonton, making his contribution to Lieut. Grace Merrick of the Edmonton detachment, Red Cross Corps, Pte. Wear, formerly with the R.C.A.S.C., is a patient in the

hospital. Lieut. Merrick visits Mewburn patients every Tuesday afternoon and on two evenings weekly goes on V.A.D. duty in the wards. Also in the above picture is Robert Muir, secretary-manager, Edmonton branch of the Red Cross.

Widow Convicted In Mate's Death

VALE, Ore., (AP)—A jury took three hours and 25 minutes to decide Thursday night, that comely Mrs. Gladys Broadhurst had induced a young cowboy to kill her husband and that she should be imprisoned for life.

The verdict upheld the state's charge that the red-haired Mrs. Broadhurst, 40, was a woman of such "charm and magnetism"—the prosecution said she was married seven times—that she persuaded Alvin Lee Williams, 23, to kill W. D. Broadhurst, 51, so she could get Broadhurst's \$146,000 fortune.

Labor Tells Fear Of Depression

other fellow but does not want to be controlled himself." The brief's recommendations included:

1. An annual national conference on labor legislation.
2. Subsidizing of low-rental housing and research to reduce building costs.
3. A "thorough revision" of the cost-of-living index on the ground that the present index was not representative.
4. Extension of the franchise to all persons otherwise eligible to vote at 18 years.
5. Greater federal support to education.
6. Maintenance of shipbuilding.
7. Establishment of a Canadian maritime commission.
8. Government supervision of highway transport.
9. Amendments to the Veterans' Land act by which any veteran may

obtain land for a home site within or adjacent to an urban centre.

10. Establishment of Nov. 11 as a statutory holiday.
11. Adoption of proportional representation for federal elections.
12. Adoption of election day as a statutory holiday.
13. A national minimum wage.
14. Increased grants to veterans taking university or vocational training.
15. A national 40-hour week.
16. Old age pensions of \$30 a month at 60 without a means test.
17. Amendment of the Unemployment Insurance act to cover all wage and salary earners with a 50-percent increase in benefits.
18. Income tax exemption for single persons earning \$1,500 a year or less and married persons earning \$2,000 a year or less.
19. Legislation outlawing injunctions against peaceful picketing during strikes.
20. Clear legal rights to strike and to conduct mass-picketing.

FOUR DIE IN CRASH
REYKJAVIK, Iceland, (Reuters)—Four of the eight occupants were killed Thursday when a flying boat belonging to the Icelandic Airline company crashed into the sea of the northwest coast of Iceland, it was disclosed Friday.

The brief's recommendations included:

1. An annual national conference on labor legislation.
2. Subsidizing of low-rental housing and research to reduce building costs.
3. A "thorough revision" of the cost-of-living index on the ground that the present index was not representative.
4. Extension of the franchise to all persons otherwise eligible to vote at 18 years.
5. Greater federal support to education.
6. Maintenance of shipbuilding.
7. Establishment of a Canadian maritime commission.
8. Government supervision of highway transport.
9. Amendments to the Veterans' Land act by which any veteran may

Boy in Ontario Mauled by Dog

KIRKLAND LAKE, Ont., (CP)—Hospital officials said Friday that "dozens and dozens" of stitches were used to close facial wounds Raymond Larroque, nine, suffered Thursday when bitten by a dog. He was in the operating room almost two hours.

True Democracy In Reich Asked

(Continued from Page 1)

conference has made little substantial progress on a treaty with Germany—which, with an Austrian settlement, is its main business.

Australia and Canada were reported urging Bevin to abstain from any discussion on China during this conference.

The two dominions were said to have taken the position that the Chinese situation was part of the general eastern settlement, which they felt should be separate from the European and in which they believe Australia and Canada should have full voices.

Investia published a page-one editorial Friday declaring that "Truman did not take into consideration either the international situation or the sovereignty of Greece."

The Moscow radio said, in part: "Truman's message is openly directed against the democratic elements in Greece who are defending the democratic institutions in the country, and who are called a militant minority in the message."

Meanwhile in London, Winston Churchill, commenting on the message, said, "No step that I have seen taken lately has more increased the chance of the maintenance of world peace and world freedom. If such a step had been taken by the United States before the last war it would have stopped it. And if it had been taken before 1914, peace might have been preserved and we should have all been living in a far happier world."

NEW YORK, (AP)—Henry Wallace said Thursday night President Truman's proposed loans to Greece and Turkey "will bring the world nearer to war."

"As one American citizen I say: No loan to undemocratic and well-fed Turkey. No loan to Greece until a representative Greek government is formed and can assure America that our funds will be used for the welfare of the Greek people," he said.

Kids Hungry After School?

Choose the flavour
4 out of 5 prefer!

When they come in from school the youngsters have burned up a lot of energy, often need a light, tasty but sustaining snack. Just another way of saying Kellogg's Corn Flakes with milk and sugar! So quick and easy to serve too... 30 seconds by the clock. Of course they'll enjoy them. Kellogg's are voted first for flavour in surveys year after year, and they're always fresh as a daisy! Be sure you have Kellogg's Corn Flakes on hand!

Non-Rail Income Termed Essential

OTTAWA, (CP)—Income from non-rail operations will be needed to meet the financial requirements of the Canadian Pacific Railway's railroad system this year, Assistant Comptroller S. J. W. Liddy Friday told the board of transport commissioners.

Testifying in the freight-rate increase case, Mr. Liddy said that even had the requested 30-percent increase been in effect all this year, the C.P.R. would have needed \$14,700,000 in "other income" to meet the railroad requirements left after paying working expenses.

The other income is derived from hotel, steamship and other operations of the company, and last year it amounted to \$22,700,000.

This year, Mr. Liddy said, the railway has calculated on net rail-

way earnings of \$14,800,000 without the increase, against requirements of \$34,500,000.

Had the increase been in effect the full year, the net earnings would have been \$30,750,000, Mr. Liddy said.

He presented an exhibit showing how this figure would decrease from month to month as time passed without the increases being granted. Up to now, it showed, the C.P.R. has lost some \$4,000,000 in potential revenue, though this loss has been partly counterbalanced by a saving of about \$2,000,000 in income tax payments.

Mr. Liddy defended the C.P.R.'s practice of including the income tax on its whole corporate structure in its railway operating costs for rate-making purposes while at the same time omitting its "other earnings" from railway revenue for the same purpose.

The non-railway investment, he declared, were of "distinct importance" in promoting railway busi-

ness and in raising new capital and other financing. Therefore, it was "entirely proper" to bring into railway costs the total income tax on the system's corporate income.

BAN SALVATION ARMY
BERLIN, (Reuters)—The Salvation Army has been refused permission to carry on its evangelical work in Germany, after Soviet complaints that it is quasi-military and that its members wear a military uniform.

Will Go To Hockey Game In Toronto

Pierre Gariepy, a paraplegic patient in the Col. Mewburn hospital and a son of Al and Mrs. E. Gariepy, will leave for Toronto within the next few days to attend one of the Toronto Maple Leafs National Hockey League games. He is shown above with Mayor Ainlay as he was presented with the necessary train and game tickets. All expenses for the trip are being paid by the Maple Leaf Hockey club of Toronto. Several other paraplegic patients from all parts of Canada have attended other games this season. The Edmonton airman was injured in a crash overseas while he was serving as a flying officer.

Woman Is Killed In New York Fire

CAZENOVIA, N. Y. (AP) — One woman jumped to death and more than 180 students and teachers fled or were helped to safety Thursday when fire gutted the west wing of Cazenovia junior college, a women's school.

U. S. FIRM ENTERS VANCOUVER

(CP) — Sears-Roebuck and Co., one of the world's largest merchandising firms recently incorporated in Canada with a charter for opening stores or offices in the dominion, will open its first Canadian branch in Vancouver, company officials in Seattle said Wednesday.

3 Extra Pounds Of Sugar Allowed

OTTAWA, (CP) — The announcement Wednesday in the commons of a 14-percent increase in the individual sugar-ration, effective April 1, means the allotment of three extra pounds of sugar or its equivalent in preserves but not both to each consumer during the remainder of the calendar year. Beginning April 1, the individual ration in each quarter will be eight pounds instead of seven.

The change will be made through the validating of an additional one-pound ration coupon in each quarter. Mr. Abbott also announced the industrial sugar ration, now at 70 percent of 1941 usage, will be increased to 80 percent while biscuit and cereal manufacturers will get a 15-pound boost to 85 percent and bakers a similar increase to 90 percent.

Equivalent increases will be extended to quota users such as hotels, restaurants and institutions. The home canning allowance of 10 pounds per person remains unchanged for the present but, said Mr. Abbott, the price board "hopes to be able" to make two or three additional coupons available during this summer's fruit harvesting season.

Fear Communists May Lead Strikes

WASHINGTON, (AP) — The United States Chamber of Commerce said Wednesday that "we are in for an era of Communist-led strikes springing from differences with Russia on foreign policy." The chamber took this view in a report on Communism in the labor movement. It urged both employers and workers to work toward uniting Communists from union leadership.

"Cleaning of the labor movement of Communism," the report said, "will lead to sounder, more peaceful and more reasonable labor-management relations." "Furthermore, it will hurt the Communists badly in their fifth column work for the Soviet union." The chamber's report was prepared and released before President Truman's speech of Wednesday was made public.

Noting that many unions now are fighting down Communist elements within their ranks, the report said employers should help the anti-Communist blocs all they can without "running foul of the Wagner act." It said, however, that the anti-Red job was "mainly a task for the workers themselves."

One Dies, 10 Hurt In Ship Explosion

GENOA, (AP) — Two heavy explosions aboard the American motorship Edmund Panning at her dock here Thursday were reported to have killed one man, injured 10 of her crew of 60 and left her in flames. (Lloyd's Register of Shipping lists the Edmund Panning as a 7,176-ton vessel built in 1943 and registered out of Los Angeles.)

NEW YORK, (AP) — All but one of the 46 crew members aboard the 6,597-ton freighter, Ecanthis, which struck a mine Wednesday off the Italian coast, are believed to be safe, the American Export Lines, owners of the vessel, said Thursday. John F. Gehan, vice-president of the company, said he had received a message that 42 crew members had been landed at Porto Ferrato, on the island of Elba.

A dispatch from Milan, Italy, via Genoa, had said that eight persons were dead and 44 missing or injured.

HONOLULU, (AP) — Six ships were converging Thursday on the United States maritime commission tanker Fort Dearborn, which reported in an SOS message Wednesday that it had broken in two approximately 800 miles northwest of Honolulu.

The Fort Dearborn, with 43 men aboard, carried 110,000 barrels of diesel oil.

Discharge Jury In Boyer Trial

MONTREAL, (CP) — The King's bench court jury hearing the conspiracy trial of Dr. Raymond Boyer, Montreal scientist, was discharged Thursday after the illness of one of the jurors.

Charlesman Broward, the indisposed juror, was excused from further duty and the remaining 11 members of the French-speaking jury were asked to report back Friday when they may be included in the new jury which will be picked. Discharge of the jury means that the trial, which got under way last Monday after frequent postponements, will have to start all over again.

Dr. Boyer, wartime research chemist for the National Research Council, is charged with having conspired to communicate information unlawfully to the Soviet Union.

Offer for P.G.E. 'Not Acceptable'

VANCOUVER, (CP) — Premier Hart has announced that no offer has been made for purchase of the government Pacific Great Eastern Railway that has been backed with a financial guarantee.

Mr. Hart, in a statement commenting on reports of a proposal by United States interests to purchase the railway and extend it into the Peace River district and Alaska, said:

"It would appear that interest in developed in promotional schemes if large land grants could be obtained. It is not the government's intention to give any large land grants."

The premier said he would continue his negotiations with the dominion government and the two transcontinental railways in an effort to have them join with British Columbia in developing the northern territory in the interest of the province and Canada generally.

LOST NO TIME "Bill's going to sue the company for damages."

"Why what did they do to him?" "They blew the dinner whistle when he was carrying a heavy piece of iron, and he dropped it on his foot."

Wartime Spies Peacetime Newlyweds

A British secret agent during the war, Mrs. Odette Sanson, who won the George Cross for espionage work in German-occupied Europe, is photographed in London after her marriage to her former commanding officer, Capt. Peter M. Churchill. The pair were captured in Europe by the Gestapo in 1943. For mutual protection they agreed to pretend they were married. For refusing to divulge names of two other British officers, even after undergoing Gestapo torture, Mrs. Sanson was awarded the George Cross, highest decoration for valor off the field of battle.

East Bank Holdup Net Gunmen \$2,500

SMITHVILLE, Ont., (CP) — Five masked gunmen Wednesday robbed the Smithville branch of the Royal Bank of Canada of about \$2,500 in small denomination bills and fled in an automobile after firing a shot at a bank customer who ran toward the police station to give the alarm.

The robbers strode into the bank on the main street of this Lincoln county village halfway between Hamilton and Welland shortly before closing time, herded the bank employees into a corner and forced them at gunpoint to lie down on the floor, and then scooped up all the money in the teller's cage.

Former Governor, Dr. Munroe Dies

ST. PETERSBURG, Fla., (AP) — Hon. Hush Edwin Munroe, former lieutenant-governor of Saskatchewan, died here Wednesday.

He came here from his home in Saskatoon, about six months ago. Born in St. Elmo, Ont., he was a veteran of the First Great War, serving as a medical officer.

He was appointed lieutenant-governor of Saskatchewan from 1930 to 1936.

Requests Removal Of Margarine Ban

OTTAWA, (CP) — Senator W. D. Euler, L. Ontario, Wednesday launched a renewal of his campaign to end the Canadian prohibition against the sale, manufacture and importation of oleomargarine as a substitute for butter.

Moving second reading of a bill to amend the Dairy act, he maintained that it was unfair to deny the Canadian consumer a cheap and wholesome substitute for butter when the latter was scarce and stressed that Canada was the lone country in the world which did so.

Remembrance Book For Dead Planned

By Richard Sanburn
OTTAWA—Canada is going to have a new Book of Remembrance for those who gave their lives in the Second Great War.

Defence Minister Claxton announced the decision to prepare such a book has been made. Where the book will be placed on completion, and what form it will take, will be announced later.

The Book of Remembrance with names of those who died in the First Great War and there is no room for a second book.

Payments Record In Drought Areas

OTTAWA, (CP) — Federal payments under the Prairie Farm assistance act for the 1945-46 crop year were a record \$18,934,217, the agriculture department reported.

A report on its activities said drought areas were the most extensive since the act was drawn up in 1939. The payments were \$1,443,198 greater than those for the 1941-42 crop year which previously ranked highest. They were \$6,529,000 above the six-year average.

Both Saskatchewan and Alberta qualified for the higher schedule of awards payable under the crop failure section of the act in townships having an average yield of wheat of five bushels or less to the acre. Manitoba had better than average crop returns and had only eight townships and two part-townships eligible for payment.

The number of awards and total expenditure in Manitoba were less than in any previous year except 1943-44.

A total of 2,128 townships were found eligible for the payment, including 1,957 in Saskatchewan and 763 in Alberta. Total number of awards was 62,751.

Illegal Entry Of Jews Claimed

JERUSALEM, (CP) — An officer of Hagana, largest and most moderate of the Jewish underground groups in Palestine, declared Thursday that 300 passengers from the beached refugee ship, Susanna had made their way safely ashore "and are now members of Yishuv," the Jewish community of Palestine.

The claim was issued while the British army was busy in Haifa transferring approximately 400 other illegal immigrants from the Susanna to the deportation ship Empire Rival, which is to take them to Cyprus internment camps. More smuggling of refugees was promised by Hagana.

Refuse to Limit President's Terms

WASHINGTON, (AP) — The senate Wednesday defeated 50 to 34 a proposal by Senator Warren Magnuson (Dem.-Wash.) to bar any future president of the United States from election "for more than two successive terms."

STOWAWAYS JAILED

Britain, hard put to feed her own people, is becoming the objective of more and more stowaways, particularly from North and West Africa. Liverpool reports. There seems to be an idea that there are more food and work in England, authorities explain. Two colored West Africans, 21 and 18, were sent to jail for a week for stowing away at Dakar in the steamer Paparoz, Liverpool-bound, recently, on their arrival.

Race With Stork Over Choppy Sea

ENDER HARBOR, B. C., (CP) — An 11-mile race across choppy waters in an open boat from Nelson Island ended with the birth of a premature baby girl to Mr. and Mrs. A. J. Harding Wednesday. The child was born as the boat reached the government wharf here. Dr. G. R. Warriner, who met the boat, said mother and daughter were doing well.

DO YOU KNOW?

Question: What goes in here to make breakfast different?

Answer:

Easy—it's Krumbles... Whole-wheat in a delicious new, really different form! Try them and see!

NOW you can enjoy shredded whole wheat in a new, EASY-TO-EAT form! Kellogg's Krumbles are shredded, curled, crisped—ready-to-eat instantly. Nothing to fuss with before you serve! Even the flavor is different! It's a heartening flavor that only Kellogg's can capture. And—there's MORE NUTRITION in every spoonful! Your grocer has Krumbles now. Get a couple of packages the next time you shop. Made in London, Canada.

...they are different!

It's Here! THE GREATEST SUDS DISCOVERY IN 2000 YEARS!

Dreft WORKS MIRACLES EVEN IN THE HARDEST WATER

No more Streaks on Dishes! No more Scum to stick to my Silks and Woolens!

Lingerie STAYS BRIGHTER AND FRESHER! NO SOAP-FADING!

Dreft is milder to colors than any soap in the world! Your lovely lingerie stays color-bright far longer when washed with Dreft. There's no soap-fading. Dreft's clear-rinsing suds keep your pretty colored slips, blouses, "undies" brighter and fresher than any soap could ever do.

New Woolens WASH SOFTER AND FLUFFIER THAN EVER BEFORE!

When washed in Dreft your precious new woolens are a joy to look at—a delight to feel! No soapy deposit to coarsen woolens and dim their colors. Your lovely new sweaters and baby things wash softer and fluffier than ever before. Yes, softer and fluffier than with even the most expensive soap flakes!

Stockings LOOK LOVELIER THAN WITH ANY SOAP!

You'll be delighted at Dreft's gentleness to stockings! Dreft suds leave no soapy film to heavy-up hose and cloud their beauty. Colors stay fresh far longer than with any soap. What's more—nightly Dreft-washing prolongs stocking life—gives noticeably longer wear!

Dishes Shine Without Wiping!

It's a Fact! No soap in the world performs the miracles Dreft performs in your dishpan. It makes dishes shine—without wiping!

No Streaks! Dreft's amazing suds rinse clean and clear—leave no greasy streaks or cloudiness the way all soaps do. Even glasses sparkle without touching a towel to them. And Dreft is kind to hands!

Procter & Gamble's DREFT brings you FASTER, BRIGHTER SAFER CLEANING

than any suds before in history!

The demand for Dreft is tremendous. If your dealer is out of Dreft, please be patient—there will be more Dreft soon.

Made in Canada. A Hygienic Product.

PROCTER & GAMBLE'S PATENTED SUDS DISCOVERY

SPORTS

HAROLD DEAN, Sports Editor

NEW METHOD, EDMONTON'S LAST hope in inter-provincial competition, has been escorted to the sidelines, presumably with nothing more than a nice-going-boys pat on the back for winning the Alberta intermediate championship, and the team which Louis Holmes' club eliminated in straight games goes to Vernon.

Plans for the series, of course, were worked out some time ago and a change at this time in order to switch some of the games to Edmonton, no doubt would present its own difficulties.

However, the prospect of a two weeks absence from work for the team, aside entirely from the standpoints of fairness and inconvenience, with the probability of the club having to face a sizable deficit, also are matters for which at least a partial solution should have been found by the authorities in charge of the playoffs.

Forced to Forfeit Rights

THE GUARANTEE FOR A HOME and home series with HC was considered too high and so the New Method team is forced to forfeit its rights. If the club did not receive sufficient warning, as is claimed, that is another side of the question. It also is asserted the original plan was to have had the Manitoba-Saskatchewan winner play here on the way through, the same as last year.

Intermediate hockey caters to a larger field than any other single class. It possibly is more fitted to fill the needs of the smaller centres than of the larger cities and the division into the "A" and "B" classes was a very wise move. The intermediate game takes care of that very large group which includes a few juniors, those who are no longer able to play junior, and the boys who either are not quite good enough, or prefer not to make the jump to senior.

It is unfortunate Alberta is not being represented by the best intermediate club in the province in the year which has been a record breaker, both in the number of clubs and individual registrations. And just an enquiry—why shouldn't intermediate clubs which enter inter-provincial competition be recompensed at the same per diem rate as juniors and seniors?

Arena Here Easier on Juniors

OFFICIALS OF THE EDMONTON arena gave the juniors a better break in the recent Alberta final series than they received in Lethbridge. Here a rental of 30 per cent was charged, while the rink authorities in Lethbridge took 40 per cent off the top.

Conny Smythe says that providing injuries don't further riddle his Toronto Leafs, they will be "strictly the team to beat." Toronto will face either Detroit Red Wings or New York Rangers. Conny also says, "Jack Adams has the Wings playing like he wants them to play. Every man has his job, a lane to patrol, and don't move an inch. Close, very close, Adams plays it"

CP's Alan Harvey says the latest word from baseball training camps is that Montreal's Jackie Robinson will be switched to first base in his attempt to make the big leagues. Robinson, now back with Royals after a switch to the hospital, has never played first.

Sharp Boston Attack Clips Red Wings 3-2

DETROIT, March 14 (AP)— Boston Bruins unleashed a sharp and accurate passing attack Thursday night to gain an early advantage over the Detroit Red Wings in a National Hockey League battle and then held off a late rally to score 3-2 victory.

Playing before a crowd of 15,000, the Bruins ran their winning streak to seven straight games while the Wings, fighting for a firmer hold on fourth place in the standings, dropped their first home game in nine starts.

FOR THE FIRST two periods the Bruins held a sharp advantage and kept the puck in Detroit's zone virtually throughout to take a 2-0 lead.

With the beginning of the third period Detroit began striking back hard. Ted Lindsay sank a 10-footer, but a little later, when he was in the penalty box for high-sticking, the Bruins went into a 3-1 shot.

Pat Lundy then took a passout

from the boards and tucked in the disc for Detroit, but the Bruins held to the finish.

BOSTON—Brinkley, Egan, Crawford; Cowley, Bauer, Dumart; Suba-Reardon, Henderson, Carveth, Gallinger, Schmidt, McGill, Marquis, Smith, Martin.

DETROIT—Lumley, Quackenbush, Stewart, Lundy, Horeck, Lindsay, Suba-Reise, Taylor, R. Conacher, Couture, Abel, Brunetteau, Mackay, Howe, J. Conacher, McCaig.

Referee: Hayes; Linesmen: Babcock and Mundy.

FIRST PERIOD—1—Boston, McGill (Crawford) 3:21. Penalty—Gallinger.

SECOND PERIOD—2—Boston, Smith (Reardon, McGill) 6:31. Penalties—Stewart, Schmidt.

THIRD PERIOD—Detroit, Lindsay (McCaig, Horeck) 1:31; 4—Boston, Martin (Henderson-Schmidt) 3:32; 5—Detroit, Lundy (Lindsay, Horeck) 11:30. Penalty—Lindsay.

BIT OF HAM IN A HORSE, TOO—Olhaver, eight years old, may live to be a hundred but will never forget that glorious day at Santa Anita when he conquered Armed

and other top horses for \$100,000 purse. A native of Chile, the 15 to 1 shot is hardly a modest champion.

Lethbridge Juniors Eliminate Trail, 9-5

LETHBRIDGE, Alta., March 14 (CP)— Lethbridge Native Sons trounced Trail Smoke Eaters 9-5 last night to take the best-of-five interprovincial junior hockey final series 3-1 in games. Native Sons now meet the winner of the Saskatchewan series.

The close-checking Native Sons established a one-goal lead by the end of the first period, led 2-1 by the end of the second and rammed home a convincing six goals in the third period to clinch the series and leave no doubt of their superiority over Smoke.

Lethbridge had the best of the play throughout. Bill Ramsden and Odie Lowe led the Sons' attack with three goals apiece. Ken Smokies, Ken Cook, Claude Bell and Scott scored one each for the visitors.

TRAIL—McNabb; Mondin, Pasquallotti, Scott, Secco, Cook, Suba—Bell, Malley, Feebley, Tremblay, Barkley, Hildebrand, Petrie.

LETHBRIDGE— Rodzinski; Lavall, Holmes, Love, Simpson, Ramsden, Suba—Murphy, Gibson, Brown, Secco, Lean, Dorohoy, McGregor, Whitehead. Officials—Stan Fuller, Chick Little.

FIRST PERIOD: 1—Lethbridge, Ramsden 15:05. Penalty—Pasquallotti.

SECOND PERIOD: 3—Lethbridge, Gibson (Brown) 12:30; 3—Lethbridge, Lowe (Ramsden) 12:38; 4—Trail, Secco (Cook) 19:18. Penalties—Lavall, Malley.

THIRD PERIOD: 5—Lethbridge, Ramsden (Simpson) 3:21; 6—Lethbridge, Lowe (Ramsden) 3:21; 8—Trail, Cook (Lowe) 5:19; 10—Lethbridge, Lowe (Lavall, Simpson) 6:31; 11—Lethbridge, Whitehead 8:24; 12—Trail, Secco 9:23; 13—Trail, Bell 10:39; 14—Trail, Scott (Cook) 17:30. Penalties—Hildebrand, Lavall, Petrie, Barkley.

from the boards and tucked in the disc for Detroit, but the Bruins held to the finish.

Wolves, Tigers Win Cage Games

Wolves eked out a 21-20 win over Lions to maintain an undefeated record and Tigers chalked up their first victory with an 11-7 decision over Bears in Thursday night's Girls' Basketball League games at McDougall gym.

Joyce Weasell of the Tigers with seven points was top scorer in the Tigers-Bears game. Tigers led 4-1 at the first quarter and were up 5-3 at the half, both counting two points in the third.

WOLVES TOOK an 8-3 lead in the opening quarter of their game with Lions, but the latter exactly reversed the score in the second leaving the two teams all square at half time. Wolves were up 17-14 at the three-quarter whistle.

Doris Bohme with eight and Iris Hagerman with six were top scorers for Wolves, while Margaret Fitzsimons contributed the night's high with nine and her Lion's team-mate Frances Crew had six points.

FIRST GAME BEARS—Miller 2, Mendryk 4, Watson, Chinneck, Eby, Stannard. Total—20.

TIGERS— Weasell 7, Thornton, Jenkins 4, Dolighan, B. Crew, Farley, Waylesky. Total—21.

SECOND GAME LIONS—Slik 1, Fitzsimons 6, Frances Crew, A. Johnson 4, Gauthier, Meneer. Total—20.

WOLVES— Turner 8, Hagerman 6, Baker 2, Bohme 3, Botheras 2, Hudson, Lovesth. Total—21.

Bears to Battle Raymond Tonight

University of Alberta Golden Bears, who have already wrapped themselves in basket ball glory, will make a further bid for honors today and tomorrow.

The students, winners of the western intercollegiate championship and the Northern Alberta crown, will engage Raymond Union Jacks in a two out of three series for the Alberta crown, with the opening game scheduled for tonight at 8:30 o'clock at the University Drill Hall.

THE SECOND game of the series is billed for Saturday afternoon at 2:30, and a third, if necessary, Saturday night at 8:30.

Raymond is reputed to have a strong team again this year. In the final of the Southern section the Jacks defeated the powerful Magrath quintet in a two out of three series.

Bears anticipate a tough series and are training diligently every day.

Scena Captures Intermediate Title

Scena Centre captured the city community league intermediate hockey championship Thursday night by trimming Cromdale 7-3 in the deciding game of the best of five final at the arena.

Arnold Armstrong paced the Scena sextet by rifling home four goals.

BC Intermediate Series Tied Up

VERNON, B. C., March 14 (CP)— Sparked by the five-goal performance of Ed Paquette, Trail all stars evened up the British Columbia intermediate hockey championship series at two games each by defeating Nanaimo Clippers 8-5 here last night. The fifth and deciding game of the Cup cup finals will be played here tonight.

Featuring an accurate passing attack, Trail had the edge on play throughout the game.

Starry Ed Paquette with five goals led the scoring parade with Bert Milne, Bill Milne and Tom Appellon tallying singletons for Trail. Bob Johnston counted a brace for Nanaimo while Bud Gourlie, Glen Miller and Ed Varga each rang up one goal.

McGregor, St. Alphonsus boxer wasted little time in settling his high school middleweight go with Charlie Tweed of Grouse. McGregor had much the better of the fight right from the opening bell, and just before the first round ended, referee "Tiger" Fisher called a halt to the battle and awarded the fight to McGregor.

Leigh McMillan posted his TKO in the fifth boxing bout of the night by stopping Jimmy Munrow, game Alex, Taylor batter, in the second round of their pee-wee match. Oscar Kruger made Arden Roberge, Cromdale, the victim of the other technical when he stopped the latter during the third round of an intermediate miniatur bout.

THE OTHER TWO high school bouts produced the best boxing and most action for the fans. Jim Ego, St. Josephs and Tom Worton, Eastwood staged a real battle right from the opening bell and Ego, who got the nod from the judges in two of the three rounds.

The other was a draw—had to go all out to earn the victory. Bob Saddy of Victoria High forced the action in his match with Bob Guoin of University high and seldom retreated, but still had to be good to beat Guoin.

Some of the other bouts that delighted the fans no little were the Neil Neville—Terry Stevenson; Gerald Patsula—Melville Wentworth; and Richard Thomas—Bob Neville matches.

TWO BOUTS went by default. They were the intermediate ones awarded to Maurice Escallier and Donald Kelly.

Officials for last night's bouts were:

WRESTLING Featherweight—Gerald Campbell St. Alphonsus defeated Peter Lischuk.

(Continued on Page 9)

Oshawa Junior Out With Toronto Leaf

TORONTO, March 14 (CP)— The Hilderbrand, Oshawa junior hockey star and lacrosse sharpshooter with New Westminster Salmonbellies, is working out with Toronto Maple Leafs of the National Hockey League these days.

TKO's Highlight City School Boxing

Three Fighters Fail Go Route Opening Night

Three technical knockouts highlighted an action filled boxing card at Westglen gym Thursday night when the annual city schools boxing and wrestling tournament opened before a large crowd—mostly students who cheered loudly for their favorites.

The big tourney resumes tonight at 7:30 o'clock with a 23-bout boxing and wrestling card and will wind up with two shows on Saturday, one in the afternoon at 2 o'clock and the last at night.

LEIGH McMILLAN of Spruce avenue scored the first TKO of the night in an elementary bout and Oscar Kruger of McAuley came up with one not long afterwards in an intermediate go. Jim McGregor made short work of the fast fight of the night to register the third technical kayo.

McGregor, St. Alphonsus boxer wasted little time in settling his high school middleweight go with Charlie Tweed of Grouse. McGregor had much the better of the fight right from the opening bell, and just before the first round ended, referee "Tiger" Fisher called a halt to the battle and awarded the fight to McGregor.

Leigh McMillan posted his TKO in the fifth boxing bout of the night by stopping Jimmy Munrow, game Alex, Taylor batter, in the second round of their pee-wee match. Oscar Kruger made Arden Roberge, Cromdale, the victim of the other technical when he stopped the latter during the third round of an intermediate miniatur bout.

THE OTHER TWO high school bouts produced the best boxing and most action for the fans. Jim Ego, St. Josephs and Tom Worton, Eastwood staged a real battle right from the opening bell and Ego, who got the nod from the judges in two of the three rounds.

Eddies Top Mixed Team

Page Narrowly Misses Bowling Tourney Lead

Close doesn't count, much to Floyd Page's sorrow, and as a result the former Calgary and now Edmonton ace, must be content to stay in second place in the Edmonton Five Pin Bowling Association's runner-up position in the A singles competition.

Yesterday Floyd enjoyed one of his better days and posted a spectacular 409 in one game and 878 for three in the A singles competition. However, his total was just four pins short of the 882 mark chalked up by Norman Nord on Tuesday night.

EARLY LEADERS clung to their posts generally as the tournament neared the final day, although some classy bowling was witnessed yesterday.

Eddies took over the top spot in the mixed teams event with a 3,536 score, displacing the Spitfires, who clung to second spot with 3,569.

ALICE JOHNSTON turned in one of the best performances of the day, bowling 854 and took over the lead in the A aggregate with 2,538, which is 13 pins above Ernie Ford's previous high. A. B. Whelpy is the new pace-setter in the B aggregate with 2,090 while Robert is still perched at the top of the C aggregate shooters with 1,819.

The tournament will wind up Saturday night with a dance in the U.S.O. hall.

Following are the leaders to date:

"A" Singles—Nord 832; F. Page 878; O. Pain 854; Caddell 833; Turner 819; Rhyne 816; Schofield 815; J. Rutherford 814; Haxby 808; Johnston 800.

"A" Doubles—Sobkow-Crockett 1740; Beckwith-Ramsey 1678; Hayes-Brisette 1648; Turvey-Jones 1637; Haxby-Wihell 1614; Caddell-Bowstead 1614; Foster-Fleming 1613; Warring-Hoyes 1549; Perse-Ostrom 1530; A. Pain-Turner-Ramsey 1578; Smith-Smith 1558; Ford-Carlson 1550; Bannister 1570; Giffen-Edwards 1547; Johnston-Diggins 1545.

"A" Teams—Screwballs 3989; Arrows 3706; Long Puts 3632; Cardinals 3644; Metropolitan Printing 3632; Smilers 3632.

"B" Singles—Brisette 899; Noonan 774; Earle 769; Goulin 738; Brydgar 728; Kjosness 721; Porterfield 713; Hansen 711; Boucher 710; Lind 707.

"B" Doubles—Tainon-Brisette 1497; Grant-Leeke 1494; Olson-Cooper 1408; Theroux-Pugh 1392; Fleming-Page 1381; 1363; Hanak-Milne 1338; Walker-Whepley-Tymko 1373; Hagie-Ferby-Flowers 1333; Burr-Paskaliuk 1331; Ferguson-Duncan 1324.

"B" Teams—Car Shops "B" 3347; Radars 3220; Spithers 3169; Attorney General Aces 3133; Ripper 3131; Duds 3115; Car Shops "A" 3104; Woodward Men No. 1 3083.

"C" Singles—Strong 720; Purches 696; Dahl 692.

"C" Doubles—Dahl-Erdale 1088; Berry Wilson 1077.

"C" Teams—Auto License 3055; Spark Plugs 2731; G. W. Saddlery No. 2 2712.

Mixed Doubles—Martin-Oberg 1590; Johnston-Diggins 1530; Fleming-Fleming 1524; Foster-Pool 1518; Kirkwood-Pool 1504; Gilbert-Diggins 1497; Graham-Frith 1416; Glander-Glander 1415.

Mixed Teams—Eddies 3596; Spitfires 3569; Bears 3527; Big Shots 3347; Ladies Booster Teams—Tea Pots 2637; Woodward 2620; Sweepers 2612.

SATURDAY'S DRAW

11:15 a.m. "A" Singles—Nabett, Sage, Clark. "A" Doubles—Wilkinson-Machon, Peters-Steckly, L. Foster-McCallum, Donly-Donly, Peters-Broome, Kellas-Milne, Head-Webster, McDermid-Ashworth, Pugh-Catonio, Dolman-Hanak, Pain-Timms, Pain-Anderson, James-Straber, Dick-Bannister, Aldrich-Malin.

"A" Teams—Four Jacks and Jill, "We just want to have a look at him in practice and see how he measures up," said managing director Conn Smythe, when asked if he planned to sign the youngster for protection in the Stanley Cup playoffs.

"B" Singles—Koss Kids, Spiders, Agg Generals.

"C" Doubles—Murphy-Tainton, "C" Singles—Mrs. H. Young.

Major Rifle Awards Go to Women Snipers

Members of the Greater Edmonton Rifle Association are doffing their fedoras to the fair sex today—and they have good reason.

During the season, which has just come to a conclusion, the women of the club cleaned up on the major awards, but they had to be at their best to do it.

Midget Playoffs

The McDougall Trophy, emblematic of the open championship, went to Helen Ramsay, who posted a 400-33x score. Dan Campbell was the defending champion.

FLORENCE CAMPBELL successfully defended the Turkey Cup and the ladies' championship, with a 400-33x score, while Rosella Coe, with 400-34x was second and Helen Ramsay, 400-33x, was third.

The three-position match which calls for dexterity in standing, sitting and prone was captured by Rosella Coe, who came through with a fine 896-56x score. Hec Wyman garnered second spot with 897-50x.

Helman trophy honors were captured by Dan Campbell, whose 397 score shaded Helen Ramsay by two points.

D. G. BARR carried off the Sketch Trophy for senior rifle shots, when he defeated Florence Campbell in the shootoff. Dan Campbell won the consolation by defeating Dan Stalsberg in another shootoff.

The Two Frees event was taken by Phil Lee and Bert Kinnear, who turned in a 298 target, with second place going to G. Grieve and H. Wilson was 293.

Lars Larsen won the Burrows trophy with a remarkable score of 800.

The results were announced by F. F. Coe, chairman of the competition committee.

India's output of manganese is second only to that of Russia's.

Pool of \$74,600 Awaiting AL Players

NEW YORK, March 14 (CP)—The American Hockey League Thursday night announced a \$74,600 playoff pool for players, largest in the league's history.

The playoffs start next week and this is how the melon will be split:

Series A: Best-of-seven between two divisional leaders, \$14,000 to winners and \$4,000 to losers.

Series B: Best-of-three between second-place clubs in each division, \$10,000 to winners and \$4,000 to losers.

Series C: Best-of-three between third-place clubs, \$8,000 to winners and \$3,000 to losers.

Series D: Best-of-three between winners of series A and C, \$8,000 to winners and \$4,000 to losers.

FINAL SERIES for championship: Best-of-seven between winners of series A and C, \$14,000 to winners and \$4,000 to losers.

In addition to the playoff awards, each player on the team finishing in first place in each division in the regular schedule will receive \$150. Similarly \$100 will be awarded to players on second-place teams and \$50 to those on third-place teams.

Playoff positions have not been decided in all cases, but Cleveland barons head the Western division and Hershey Bears are on top in the eastern.

Seattle Eliminates New Westminster

NEW WESTMINSTER, B. C.

March 14 (CP)—Seattle Ironmen eliminated New Westminster Royals from the Pacific Coast Hockey League's northern division playoffs by defeating the Royals 3-1 in the fourth game of the semi-finals here last night.

The best-of-five series 2-1.

Ironmen had the victory sewn up before the end of the first period. Bob Ballance sank their first goal shortly after the opening whistle and Paul Watson added another before the end of the session.

NEW WESTMINSTER'S only goal was scored by Ollie Dorohoy late in the initial canto. Neither club bugged the time in the second period as Royals were turned back time after time by goalie Freckles Little.

Captain Eddie Dattell put the game on ice for the Ironmen with a final tally late in the third period.

Seattle now meets the winners of the Portland Vancouver contest for the northern division final.

Doncaster Wins

LONDON, March 14 (Reuters)

Doncaster defeated Barrow 4-0 Thursday in an English League soccer contest. Both teams are from the third division.

Mansel vs Hodgins, Decker vs Fitzgerald, Nelson vs Rice.

**ICE: IT PROVIDES SPORT IN SWEDEN,
HAZARDS IN ENGLAND AND ANTARCTIC**

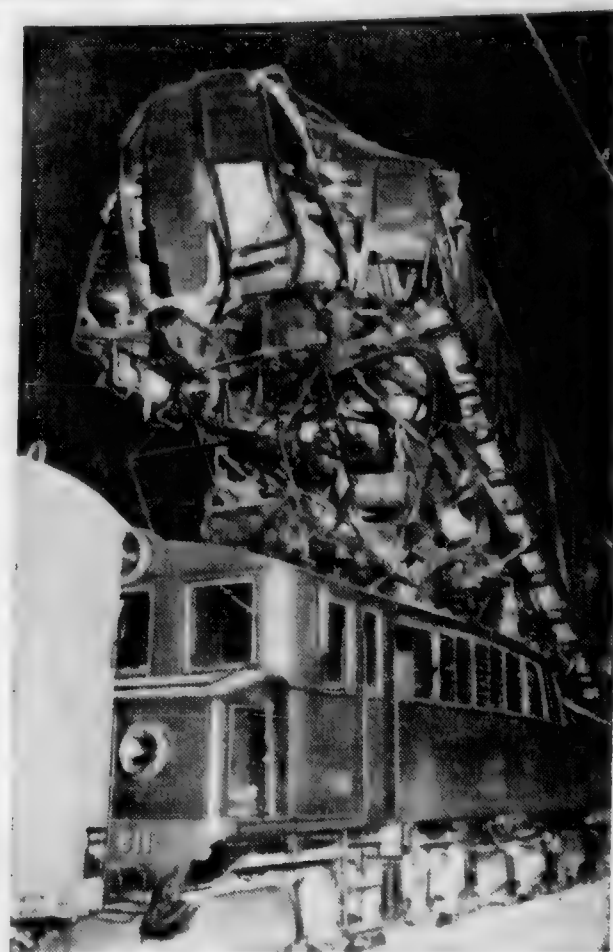

Copyright, 1947, by Acme Newspictures

**WHACKY ACCIDENT: THIS FREIGHT
CAR WENT FOR A PIGGY-BACK RIDE**

STRAIGHT SHOOTER—Stanley Uno (right), American-Japanese candidate for the Los Angeles police force, gets some pistol training from police sergeant George Danbacher. Uno served as a sergeant in the military intelligence during the war and since then as a deputy sheriff in Los Angeles County.

LOOK OUT BELOW! This electric engine is caught in a wreck of its own making. It plowed into the last two cars of a parked freight train at Vaennas, Sweden, hurled one high in the air and then got hit by the falling car.

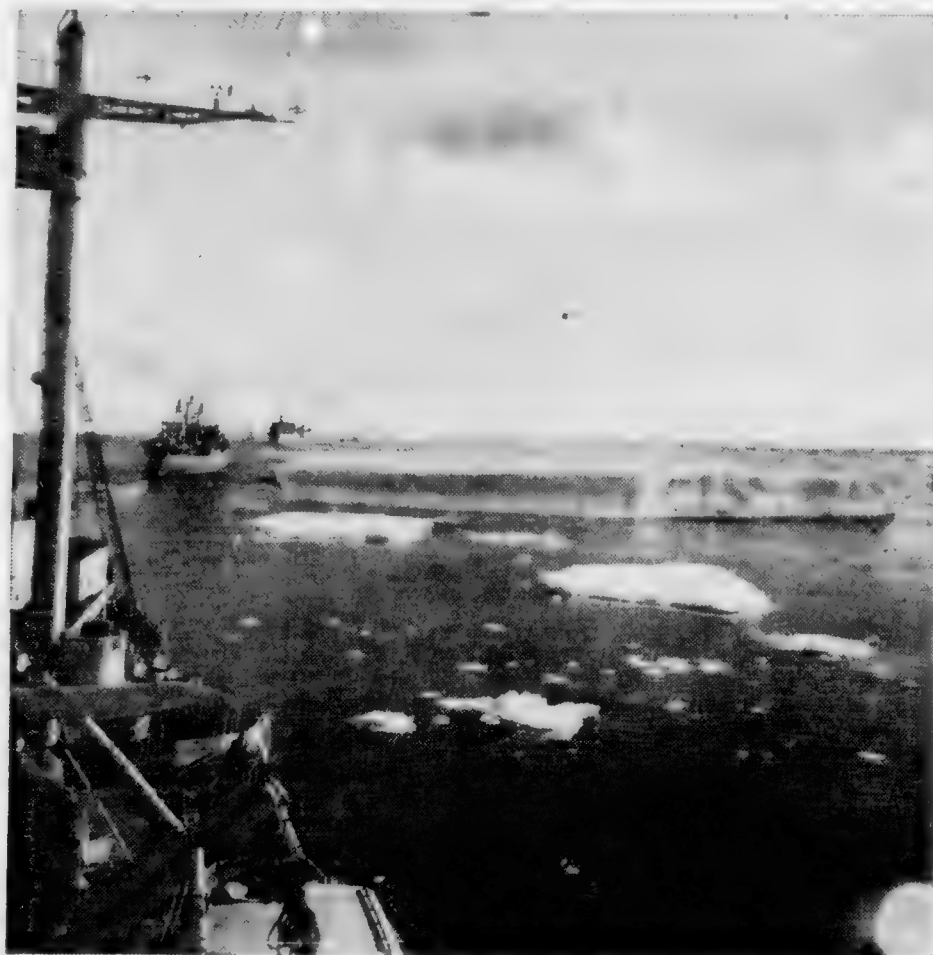

SOME CHANGE! Grandma would have been quite shocked to see anything as startling as the beach costume worn by Joan Gordon (left) at a Miami, Fla., style show. She was more used to something neat and prim like the bustle model Mrs. Carol K. Lovener is wearing at right.

"ICE JUMPING" is an old Swedish sport once practiced by the Vikings. When the ice in rivers and lakes begins breaking up with the approach of spring, the jumping season opens. The jumpers catboats are at the Knight's Bight in Stockholm. In the background is Southern Malar Strand with the Town's Building. The boys stopped jumping long enough to wait the photographer take the picture from a helicopter.

WORLD BANKER—John J. McCloy, New York attorney, poses informally in his Washington, D.C., office after his election as President of the World Bank. He succeeded Eugene Meyer, publisher, who recently resigned.

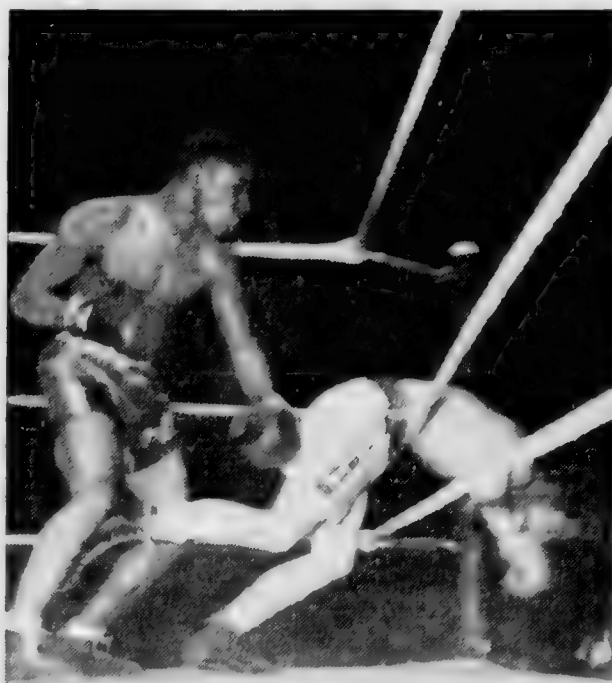

HOMEWARD BOUND—Led by the Coast Guard icebreaker Northwind, the USS Merrick, Yancey, and Mount Olympus head out through the ice pack around Little America. Approach of winter is closing the Navy's Antarctic Expedition home. Rear Admiral Richard E. Byrd, leader of the expedition party, says that "never before in history has any expedition discovered so much unknown area." (Official U.S. Navy Photo from Acme.)

WATCH CLOSELY, says clown Edward Raymond, and the little girl in the left foreground is doing just that. When the youngsters at the Shrine Hospital in Chicago couldn't get to the circus, the circus came to them with a special show.

FIRE IN THE NIGHT—In a welter of hose, firemen battle flames in downtown Memphis, Tenn. The fire destroyed a five-story building housing a drug store causing damages estimated at \$325,000. There were no casualties. The fire reportedly started in basement of the building and spread upward from there. More than 18 hours after the flames broke out, firemen were still pouring water into the burning ruins.

GOING PLACES—Washie Stover, Oklahoma City, looks like he's going places as he heads out through the ropes in this Golden Gloves fight in Chicago. But he came back to win the decision from Clinton Isom (left) of Grand Rapids, Mich.

SECOND STORY JOB—Workmen begin digging out occupants of this farmhouse near Corwen, England, who were caught inside their home when a 300-foot wide avalanche of snow and ice swept down from a nearby mountain. One of those trapped was a bed-ridden old man of 73. The rescue team trudged two hours through 15-foot drifts to reach the isolated farm.

QUAKER OATS

Tell of Difficult North Trip To Transport 40 Tons Fish

PEACE RIVER—Tales of transporting fish to market the hard way were brought to Peace River recently when a tractor train returned to town after 30 days absence. During that time the train travelled over 160 miles to Peoria, Lake Peace, northeast of Peace River, and returned with over 40 tons of whitefish and trout. The shipment was consigned to an Edmonton packing concern by the owner, A.M. Fisher. The trip started Feb. 4 when the "entertainer" tractor with four sleighs and one canoe left Peace River. Members of the crew were S. Lawrence, W. Umbach, J. Phillips, L. Squires and A. M. Fisher with H. DeJong accompanying the party on the outbound trip. Freight was carried for the last named to his trading post at Loon Lake. Used Winter Road
The tractor train made use of the recently cut winter road from a point on the main highway about seven miles east of Peace River, from where they travelled through the timber to Harmon Valley to Loon Lake. The road was made by the end of the open road for the train and from there the road was cleared, the bulldozers pushing trees of all sizes to make a right-of-way.
The train had to contend with nearly four feet of snow and plenty of cold weather, with the temperature below 40 below zero on several occasions. Not only was there snow and cold to contend with, but many of the muskies were wet and the train travelled through slush in these areas.
But the tonnage of fish is believed worth the long trip as the first quality fish from the lake will provide first class eating. The small sized whitefish weigh about two pounds each, the jumbo whitefish about six pounds each and the lake trout as much as 25 pounds.
Nearly Without Fuel
While on the homeward trip the train had not only to contend with weather but also the danger of exhaustion of fuel. By the time O. Lawrence met them at Rat Lake, two days out of Peace River on the return trip, they had only one or two hours supply of fuel left.
It is estimated 27 barrels of fuel were consumed on the 320-mile trip which once again emphasizes the natural wealth which awaits development in the many lakes in the north, such as Peoria.

Eckville Winner Of Hockey Tourney

ALIX — Playing before a record crowd in the arena here, Eckville captured top honors in one of the best hockey tournaments ever held here, defeating Forestburg by a 6-5 score.
Eckville won their first game against Alix by an 8-5 count and in the second game Forestburg defeated Wetaskiwin Majors by a 9-1 tally.
The final game was well played and enjoyed by the large crowd throughout.

Armstrong Head Vermilion Club

VERMILION — There was an attendance of 12 boys and girls for the spring meeting of the Vermilion Beef Calf Feeding Club. There now are 22 members of this club which is under the supervision of District Agriculturist E. H. Buckingham and Local Leader W. L. Robinson. The senior executive consists of Alex Morrison, Brent MacNab, Wilfred Potvin and Mike Ichuk.
Chief business was election of officers. The club chose Jim Armstrong as president, John Hennek as vice-president and Alex Schorkopis as the secretary.
Mr. Buckingham gave a talk on the club program and finishing calves for the show which probably will be held at the time of the Vermilion fair.

District Personals

SYLVAN LAKE—Mr. and Mrs. Elmer Maki have returned after a two-week visit with relatives at Eckville. Miss Doris Jamieson is in charge of the Heather Lunch while Mr. and Mrs. W. Cameron are away on a visit to Scotland. Mr. and Mrs. V. J. Armstrong have moved to reside in Red Deer. Henry Clifton, Ponoka, is a visitor at the home of his daughter-in-law. Mr. and Mrs. Dan Rontag and daughters, Beverly and Betty, have returned after a visit to Leduc. W. W. Clark has returned to Lacombe after a short visit here. H. Wall is visiting at Calgary. After residing at Rocky Mountain House for several months, Ernie Beckett has returned to his home here.

ARVILLA—Young people's group here held a concert in the school to raise funds for a community hall. Sixty dollars was realized and will go toward the fund. Concert featured short plays. Raffle was won by Mark May and Elmer Myers. Frank Knight, storekeeper here, has been to Barrhead and Edmonton for medical treatment. "Red" Lorenz is home again after a few months in British Columbia. Eric Bjorkas has returned from Niton where he has been working in the bush. Joe Lorenz has received word he is again a grandfather. Reinhold Haenschke has been confined to his home. Those willing to cut logs to be used for building a community hall are asked to leave their names with Jack Monro. Johnny Pendrck of Hixbridge and Miss Helen Vaicourt of Arvilla were married recently. They will make their home in the district. Mrs. C. W. May is improving after a recent illness. Roy Krisher has rented the Haddigan quarter. Recent guests at the home of Mr. and Mrs. C. W. May were Mrs. W. May

Operational wings and citation for gallant service have been awarded posthumously to Flt. Sgt. Percy Hardy Simonson, son of Mrs. P. M. Simonson of Kingsman. The wings and citation were received by Mrs. Simonson. Flt. Sgt. Simonson was reported missing on an operational flight over Germany in 1944 and later was presumed dead. He enlisted in the R.C.A.F. in 1942. Before enlisting he taught school in the Camrose school division.

Lopatka Is Head Students' Union

ANDREW—High School Students' Union held a re-election meeting recently and Raphael Lopatka was chosen president, Nick Hunchak, vice-president, and Jean Levicki, secretary-treasurer.
Additional officers are Jane Romanuk, editor of the school paper and Tom Kutcher, sports director. Plans are being made for the forthcoming amateur night which has been an annual student's union event.

District Personals

and son Charles who arrived in Canada in February from Scotland.

WASKATENA — Mrs. D. Stephen and son, Ronald, have gone to Prince George, B. C., where they will take up residence. Mr. Stephen has been there for several months. Mrs. P. Knight and Denta Jean recently visited at the home of Mrs. Knight's parents, Mr. and Mrs. G. Woodward. Stephanie Chorney, grade eight student, is home after having an operation at the Radway hospital. Robert Butler, grade nine student, is home from the Radway hospital. Mrs. G. Repka is home after being a patient in an Edmonton hospital. R. Robson, Relief Agent, is here awaiting the arrival of the new agent, L. H. Tebo of Banff. J. P. Coulson, manager of the Co-op and Jack Woodward, director, attended the annual meeting of the Alberta Co-op Wholesale held at Edmonton.

ALCOOMDALE — A post-nuptial shower was given in the Independence Community hall in honor of Mr. and Mrs. Leonard S. Whitson. Shower was sponsored by the Women's Institute. The Independence Women's Institute held a successful meeting at the home of Mrs. W. B. Mills. Mrs. Elliott gave a paper on "The New 'Thin' Wings and read an excellent paper on methods for keeping your complexion in repair. Three gifts for children were reported ready to send overseas. Mrs. Sims had charge of the social hour. Mr. and Mrs. S. L. Whitson have returned from a six-week stay in Edmonton. Mr. and Mrs. Peter Sprackman of Edmonton are visiting at the Whitson home. Joyce Elliot, injured during a school sleigh-ride in Edmonton, is recuperating at home.

Mannville Club Elects Officers

VERMILION — An early session of the Mannville Club was held at the home of Mrs. Phil King and work was done on the completion of programs for the next few months. Mrs. F. C. Hall, new president for the coming year, was in the chair and Mrs. W. Schaefer, new secretary-treasurer took over her duties. Minutes of clubbing for a layette are requested for the April meeting. Mrs. Maxton filled in the social hour with a selection of comic readings. Next meeting to be at the home of Mrs. D. McEwen April 3.

95th Birthday For District Man

SEBA BEACH—Known to his many friends throughout the province as "Banjo Daddy," N. A. Guyon observed his 95th birthday recently at his home here.
He gave a chicken dinner to five of his friends and cooked the meal himself. Table was centered with a birthday cake with 95 candles on it.
Combined ages of the five guests, J. Bonin, J. Poirier, T. Dolan, P. Bala, and E. L. Page was 475 years, the youngest member being 70 years young.

Car and Washer Is Lost in Fire

WASKATENA—Fire in the garage of J. Mulak, district farmer, completely destroyed his car and a new power washing machine. Efforts to pull the car out of the garage failed.
As the garage was located near the family dwelling all efforts were centred on saving the house.

Weisenford W.I. Plans Program

ALBERTA — Weissenford Women's Institute held a meeting at the home of Mrs. Phil King and work was done on the completion of programs for the next few months. Mrs. F. C. Hall, new president for the coming year, was in the chair and Mrs. W. Schaefer, new secretary-treasurer took over her duties. Minutes of clubbing for a layette are requested for the April meeting. Mrs. Maxton filled in the social hour with a selection of comic readings. Next meeting to be at the home of Mrs. D. McEwen April 3.

Jailed for Theft At Dawson Creek

DAWSON CREEK — James Henry Bruce, charged with theft, was sentenced to one year with hard labor by Magistrate Kitchen at Dawson Creek recently.
About 100 a.m. on Saturday the R.C. police received a complaint that the safe at the Carlton hotel had been found and two wedding rings, two engagement rings, two wrist watches and \$142 in cash were missing. An hour later Bruce was placed under arrest. He pleaded guilty and elected to be tried by the magistrate.

U.F.W.A. MEETING

MILLET — March meeting of the Hillside U.F.W.A. was held at the home of Mrs. Howard Marr, with seven members present. It is requested that articles for the fall bazaar be brought to the April meeting. Mrs. Marr gave a full report on the public meeting held in the Porto Bello school regarding the Weissenford High School. Mr. H. C. Young read a bulletin as well as giving a paper on horticulture. Refreshments were served by Mrs. Young and Mrs. Lander. Next meeting will be held at the home of Mrs. W. Marr.

RESPONSE IS GOOD

LACOMBE — Response to the Lacombe Medical Centre blood bank has been good with approximately 30 residents already volunteering to donate blood. Ten to 12 more donors will meet present objective of the bank.

Lacombe Expects Reach Objective

LACOMBE — A blood bank is expected to be established at the Lacombe Medical Centre. Donations of blood are being solicited from the community. It is expected that the bank will reach its objective of having a sufficient supply of blood for emergencies.

Reach out a helping hand to these Unfortunates

Without warning fire strikes in a lonely settlement. The Red Cross supplies food, clothing, shelter to the unfortunate family.

A flood or explosion lays waste a whole section of the community. The Red Cross swings into action to provide shelter, clothing and medical aid for those left homeless.

In any catastrophe, great or small, the Red Cross is ready to bring needed relief to suffering humanity.

Will you support this necessary work? Help to correct the deformities of little crippled children... Carry on the magnificent work of Red Cross nurses in isolated Outpost Hospitals... Help maintain Red Cross lodges at veterans hospitals, where sick and disabled ex-service men may visit their loved ones amid home-like surroundings... Help along the work of the army of the Junior Red Cross.

In peace as in war, the Red Cross work must go on.

What Does A Bank Mean To You?

A Friendly Neighbour

Stop and think how close a neighbour a bank really is:
And how friendly and useful a neighbour. You can use it to cash a cheque, make a deposit, pay a bill, obtain a loan, and perform other banking jobs. A bank is as essential to the welfare and progress of your community as the local drug and grocery stores, church, school, police and fire stations. Over 500 branches of The Canadian Bank of Commerce serve you in cities, towns, villages and hamlets right across Canada. You can consult our local Managers any time.

Margaret Truman To Sing Sunday
NEW YORK (AP) — Margaret Truman will sing "The Last Rose of Summer," "Fading Gown," "Lullaby" and "The Star of Bethlehem" on her Sunday night broadcast with the Detroit symphony orchestra, the American Broadcasting company said Thursday.
Miss Truman originally was scheduled to make her radio debut last Sunday night but the appearance was postponed because of an attack of laryngitis.

Sets Altitude Record For Helicopters

Major Ernest Cassell of Indianapolis, Ind., is shown here after setting an unofficial helicopter altitude record of 18,500 feet. The previous record of 11,243 feet was made in Germany in 1939. Maj. Cassell is a pilot in the test section at Patterson field, Dayton, Ohio.

No Ideology Has Yet Taken Place of Naziism in Reich

By Gault MacGowan
HEIDELBERG. — As Germany moves toward its second year of liberation from Nazi propaganda, the question is being asked here with increasing frequency: "What has been substituted in its stead?"
The answer is, nothing yet. Big strides have been made in establishing democratic processes in the American zone. However, Philosophy Professor Karl Jaspers of Heidelberg University observed: "You cannot turn out democrats overnight."
Spring is the proper time, he believes, for the German people to begin to turn out democrats. Democracy is

a plant of slow growth. Political maturity is the result of education...
"I have about 600 students... I try hard to fix in their minds the moral bases of political life. I give them the early Greek and Roman philosophic teachings, and later I stress the American and British fight for the dignity of mankind and human freedom."
Ignores French
Jaspers did not cite the French revolution as part of the idealist struggle for freedom. He believes that the French revolution was a mere political struggle to replace the old regime by a new one. He believes that the German people are beginning to turn out democrats, beginning with the story of the Hansaatic League.

Arctic Airports Still Being Used

OTTAWA (CP) — The far northern airports of the wartime "Crimson Route" which carried their way to Europe through northeastern Asia are still being used by Canadian and United States aircraft, an official said Thursday.
Once a top-secret war project designed as an alternative route to Britain, the comparatively desolate airports are now being used as weather stations and bases for peacetime operations of Canadian and United States aircraft.
The route was constructed by the United States in the early years of the war and purchased by Canada by previous agreement, shortly after the defeat of Germany.
The series of "hops" by which the aircraft flew the Atlantic went from the P. M. Man, to Churchill, thence to Southampton, then to Baffin Bay, then to Baffin Island, and on to Greenland, Iceland and Prestwick, Scotland.
Because Canada lacks sufficient personnel, several of the northern stations are manned by small U.S. army staffs with the approval of the Canadian government.
The U.S. still uses the airports for ferry trips to Britain and Europe since the route is still the shortest from western parts of the United States.

Senate to Revive Immigration Study

OTTAWA (CP) — Two Canadians most intimately involved with the refugee problem called on the Canadian government to revive a study of immigration which was begun in 1945 but abandoned in 1947.
Senator Arthur Meighen, Liberal, said that the study was a "valuable" one and that it should be continued. He said that the study was a "valuable" one and that it should be continued. He said that the study was a "valuable" one and that it should be continued.
Senator Gray Turgeon, Liberal, said that the study was a "valuable" one and that it should be continued. He said that the study was a "valuable" one and that it should be continued.

Permanent Army 129,000 in U.K.

LONDON (CP) — War Secretary Bevin said today that the British government had decided to maintain a permanent army of 129,000 men.
The war secretary announced that the British government had decided to maintain a permanent army of 129,000 men. He said that the British government had decided to maintain a permanent army of 129,000 men.

U.S. Plans Equip 100,000 Greeks

NEW YORK (AP) — The United States plans to equip the Greek army of approximately 100,000 soldiers properly to enable it to protect its country's borders, an informed source said Thursday.
This informant, who would not be named, said a military mission would equip part of the aid to Greece envisaged in President Truman's message to Congress Wednesday. He made it clear that plans do not call for sending American soldiers to Greece.

Show Air Travel Safer in Canada

OTTAWA (CP) — Air travel in Canada was almost 50 percent safer than in the United States in 1945, it was indicated by figures tabled in the commons Thursday.
Canadian authorities previously have "kept their fingers crossed" when asked about comparative air fatalities between Canadian and American airlines. But a return tabled for Stanley Knowles, C.P.F. Winnipeg south shows that in 1945 there were 10 deaths out of 1,380 fatalities per 100,000 passenger air miles compared with 231 in the United States.
Canadian railways have a long impressive 1945 record in comparison with the United States. The Canadian railway system has a long impressive 1945 record in comparison with the United States.

Bible Holds Place As No. 1 Best Seller

CALGARY (CP) — Neither paper nor book sales are showing signs of a lull in the Calgary book store in the world's largest book store in the world, Clarence W. Lee, Toronto, publisher-manager for the book store, said here Wednesday.
There is an increasing demand everywhere for religious books of a prophetic nature, Mr. Lee said.

U of A Plans Honor Two City Residents

The senate of the University of Alberta, meeting recently in the convocation hall, decided to award the honorary degree of doctor of laws to Chief Justice W. R. H. Brown and John W. Hartnett, both of Edmonton, and to Fred E. Osborne and F. G. Buchanan, both of Calgary. Chief Justice Brown and Mr. Osborne will receive their degrees at the spring convocation, May 14. Mr. Hartnett and Mr. Buchanan at the fall convocation, the date for which has not yet been set.

CHIEF JUSTICE Brown was the first of the honorees to be named. He is a native of the province and has been a member of the senate since 1928. He has been president of the senate since 1934. He is also a member of the senate of the University of Toronto.

Mr. Osborne was a member of the senate since 1928. He is a native of the province and has been a member of the senate since 1928. He is also a member of the senate of the University of Toronto.

IT IS EXPECTED that a large number of students will attend the convocation ceremony at the University of Alberta on May 14.

Man Is Killed By Falling Tree

Struck on the head by a falling tree, Harry Derkach, 32-year-old resident of Thorburn, was killed Wednesday according to a report from RCMP.

He was working at a lumber camp 50 miles west of Whitecourt, Colman, who was working with Derkach at the time of the accident, said one felled tree became hung up on another tree, the butt of the tree slid off the stump, twisted around and struck Derkach on the head. The district coroner said no inquest will be necessary.

Society to Meet

The Historical Society of Alberta will hold a meeting in Room 111 Arts Building, University of Alberta, on Monday at 8 p.m. At the meeting the election of officers for the year, Ernest Brown will give an illustrated talk on early Edmonton.

Rural mail delivery service was established in this country in 1896.

Committee Amends Drumheller Bill

Legislative amendments were made today to the bill introduced by the municipal law committee of the Legislature.

Drumheller, which would be read from one of the clauses in the bill, and this section was agreed to by the committee without a dissenting voice. Attorney General Hon. James Macdonald K.C. remains the committee that some changes to a similar clause would be necessary in considering the Drumheller amendments.

Five subsections of the Drumheller bill were deleted following attacks on their provisions by Mr. Macdonald and W. J. Williams (Edmonton).

We can enforce it under the Highway Traffic Act without your amendment, Mr. Williams was told by the committee.

Mr. Williams said the committee had eliminated a section which would have permitted drivers from outside the city to solicit business within the city.

Taxi drivers of the district were represented by N. Kotyk and E. Allard.

DERELICT CARS often interfere with traffic on Drumheller streets, W. A. Sanderson, K.C., Drumheller city solicitor, informed the committee when explaining a section of the bill which would give the city power to haul vehicles to a garage for infractions of the city by-law.

This part of the bill will be redrafted by city officials and the attorney general to make its terms more specific.

City clerk Harold A. Brown accompanied the Drumheller delegation, A. E. Fee (S.C.-Sedgewick) was chairman of the committee.

Students Address Pharmacy Meeting

Three third year pharmacy students presented papers at the seventh meeting of a series of seminars sponsored by the school of pharmacy and the Edmonton Retail Drug Association held early this week at the University of Alberta.

The speakers and their topics were: Miss S. Kobylyak - "British Antidotes"; Mr. L. Chatten and "Benadryl"; Mr. A. M. Bailey. The addresses were summaries of reports prepared by these students as part of their course in Pharmacy.

Miss Kobylyak discussed the physiological aspects of bile formation and the utility of bile preparations in hepatic disorders. She described the various official and trade preparations available on the market.

Mr. Chatten traced the investigative work done on British Antidotes (commonly known as B.A.L.) during the war as a counter measure for war gases. This compound has now found a useful place in therapeutics as a remedy for arsenic poisoning. Mr. Bailey outlined the utility of Benadryl, a new antihistamine compound in the treatment of allergic disorders.

Dr. M. J. Huston, acting director of the school of pharmacy, introduced the speakers and at the conclusion of their addresses they were thanked by O. Phillipson, president of the Edmonton Retail Drug Association.

889 Vets Draw Work Allowances

Veterans being paid out-of-work allowances in the last week numbered 889, as compared to 1,749 in the same week last year, J. W. Dutton, district administrator DVA, announced Friday.

Awaiting returns allowances in March 1946 for 1,000 and 12 for 1947. As compared to 1,000 for 1946 and 12 for 1947.

To date 76 veterans have taken advantage of the Veterans Business and Professional Loans Act to provide themselves with ready cash to start new businesses or to improve or enlarge present businesses. Sum of \$147,804 has been loaned in this way.

GLADIOLUS MEETING

The gladiolus section of the Edmonton Horticultural Society will hold its regular monthly meeting in the society's office, 9938 102 avenue, on Monday, at 8 p.m.

Chief Executive Here Larger Membership In Scouts Is Urged

A call for increased membership in the Boy Scouts Association of Canada was sounded Friday in Edmonton by D. C. Spry, chief executive scout commissioner for Canada, who is here for conferences with scout leaders of the province. Interviewed at the Macdonald hotel, he spoke of the qualities of leadership which were inherent in the training received in scouting, and that in the present world outlook there would be a growing need for balanced leadership.

HE WILL confer here with Hon. C. N. H. Brown, minister of lands and mines, and provincial scout commissioner, H. B. H. Brown, executive commissioner and W. J. Kirk, president of the provincial council.

He will speak this evening at 7:30 at a meeting of scouts and officials in the RCMP barracks.

He said there were 100,000 scouts in Canada and that there was a growing need for more boys to receive the wholesome training of scouting through the association.

CANADA'S SCOUT movement has done much to build the character and citizenship of the youth of Canada and that there was a growing need for more boys to receive the wholesome training of scouting through the association.

We are looking for an above average with a gunpowder mentality," he said, adding that the purposes and objectives of the scout movement were designed to appraise life with balance, tolerance and understanding—a need which was becoming more and more apparent every day.

MR. SPRY became chief executive commissioner of the Canadian General Council of the Boy Scouts Association last September upon the retirement of Dr. John A. Stiles.

He was formerly chairman of general staff of the Canadian army and commanded a military corps which started in 1922 with the first army corps and ended with the first army corps.

Who Should be Older? The Man or the Wife

A learned judge and an equally knowledgeable psychologist have been having a hot argument over which should be the older in marriage, the husband or the wife. The judge contends that the husband should be about 12 years older than the wife, while the psychologist claims that a marriage is more likely to succeed, if the wife is the elder.

Undoubtedly the respective ages of the contending parties is an important factor in determining the success or failure of every marriage, yet it is a matter that has never been given the serious consideration it deserves. For the most part, we have considered that how many birthdays a bride and bridegroom have had is purely a matter of personal taste, and when they pick 'em young and tender or old and tough is their own business with which no one has a right to interfere.

AS NEAR as we have any concrete general opinion about it, it is that the younger people marry, the easier they find it to adjust themselves to each other and the happier the marriage is likely to be. This is nothing but romantic hokum, for statistics show that it is the boy and girl weddings that keep the divorce courts working overtime and that turn so many honeymoon cottages into dark and bloody battle grounds.

Of course, if the question which should be the elder in marriage, the husband or the wife, were put to a popular vote, the husband would get the priority. But this may merely be because we are accustomed to the bridegroom being older than the bride, and we find something ludicrous in the spectacle of a husband who looks like Mamma's little boy.

Certainly age is no guarantee

that a husband will be easy to live with. We don't grow roses as we go through life. We acquire thorns. Practically all old people get set in their ways and are obsessed by the hallucination that they are incarnate wisdom. So the young wife of an elderly husband has a hard road to hoe.

NEVER WAS there a more misleading slogan than the one about it being better to be an old man's darling than a young man's slave. It is the other way about in most cases, and any girl who marries a man much older than herself lets herself in for a long spell of fire-side sitting and nursing an old man and listening to his boring reminiscences, and she goes about smelling of rheumatism liniment instead of Chanel No. 5.

On the other hand, the marriage of an elderly woman and a youthful man is beset with even more pitfalls than that of Grandpa espousing a baby-sister. True, there is no such husband-spoiler as the wife who has a boy husband, but there is always lurking in the background the knowledge that they are figures of fun to the beholder. They have made themselves ridiculous by stepping out of their age class.

And heaven alone knows the incessant toll the elderly wife goes through trying to keep her young husband interested and amused, and the jealousy that tears her heart to tatters as she sees him playing around with girls of his own age and knows that youth calls to youth, and that sooner or later she will lose him.

So the question of whether it is better for the husband or the wife to be the elder can only be answered by saying that there should be so little difference in their age that it doesn't matter.

The Book of Knowledge (Department: Our Own Life)

This and the following articles are taken from the Book of Knowledge and can be clipped for saving in a reference book.

ANIMALS WITH BACKBONES (2) Amphibia, Reptiles, Birds and Mammals

In yesterday's article, we told you that there are five major classes of backboned animals, or vertebrates. And we selected a small menagerie with one animal from each class — a goldfish, a spotted frog, a garter snake, a canary, and a dog or cat. The fish is the lowest form of vertebrate.

Now we come to the spotted frog, which represents the class of backboned animals called amphibians. Other amphibians are toads and salamanders.

The word amphibian is familiar nowadays because we have heard so much about amphibian planes that can land on water as well as

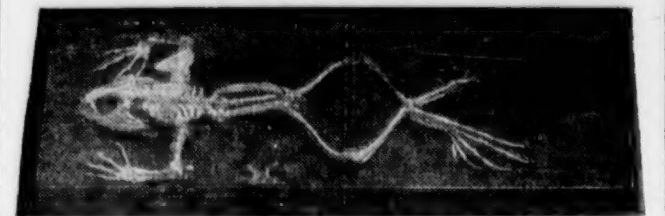

legs, or arms and legs. Vertebrates like your dog or cat have two pairs of limbs all their lives. Snakes are limbless, but most other reptiles have well-developed limbs. Birds have legs and wings, which are a kind of limb.

A frog has hands on its forelegs, but each hand has only four fingers. On its hind legs it has feet, each with five toes.

The class of animals called reptiles includes all snakes and lizards. It includes the turtle, and all kinds of tortoises. Crocodiles and alligators are other well-known reptiles.

In ages past, many reptiles grew to enormous size. Some were five times as large as an elephant. Nowadays, reptiles are nothing like so large. We do not know the reason, but those mighty monsters died off.

The canary that we have in our menagerie represents the fourth class of vertebrates, the birds.

General Biological Supply House.

on land. The amphibious truck called a "duck" can run in water and surf as well as on the beach. Amphibia is a Greek word meaning "double life," and a double life is just what amphibian animals have—one part of it is spent in the water, and the other part is spent on land.

In order to live on land, an animal must be able to breathe the air, and in order to breathe air it is necessary to have lungs. Fish do not have lungs; they have gills with which they are able to use the air that is in the water.

Amphibia (frogs, toads, salamanders) are hatched from eggs in the water. They come out of the shell as tadpoles, or polliwogs. They can soon swim, and they soon grow gills for their life in the water. When some time has passed, the fishlike polliwog begins to change in a wonderful way. Its lungs grow bigger, its gills smaller, it grows two pairs of legs, its tail slowly disappears—it has become a land animal, walking (or at least jumping) and breathing air. But most amphibians continue to live near the water, and most of them are good divers and swimmers.

All but a few backboned animals higher than the fish have limbs of one sort or another. These limbs come in pairs. They may be forelegs and hind legs, or wings and

The dog and cat of our menagerie stand for the fifth and last class of vertebrate animals, the mammals. Mammals are animals with hair or fur, and they feed their young by means of milk.

The Primates, the first highest, of the mammals, are the order or family to which man belongs. There are several other orders of mammals—the bats, whose hands are wings; the flesh-eaters; the insect-eaters; the gnawers and burrowers; or rodents; the marsupials, animals that are carried in their mother's pouch when young; and others. Some even lay eggs, like birds. Some fly, such as bats. Some live in water—the whales, for instance. Some live in trees, and others in nests under the ground. The class of mammals, the highest group of vertebrates, is varied and wonderful.

Although man is in all physical respects an animal, a vertebrate, a mammal and one of the Primates, he stands apart from all other animals in many ways—to say nothing of his soul. He walks erect. He has hands that are skillful and a brain that can reason and remember and learn and create.

Send TWENTY CENTS (20c) in coins (stamps cannot be accepted) for this pattern. Print plainly SIZE, NAME, ADDRESS, STYLE NUMBER.

Send your order to The Edmonton Bulletin, Pattern Department, 60 Front Street, W., Toronto, 1-A, Ont. Please allow a week or ten days for delivery.

Bridge

By William E. McKenney

While in Chicago recently I watched William McGhee play gin rummy, and it confirmed my belief in his card-playing ability.

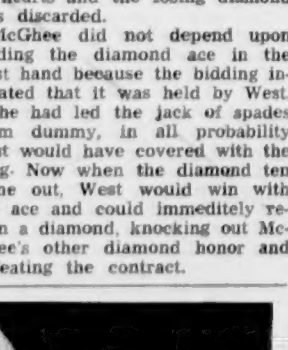

He played the game as well as I have ever seen it played. McGhee is a rather bold bidder in bridge and depends upon his card playing to deliver the contract. Later I had an opportunity to watch him play today's bridge hand.

It is true that the opponents could have defeated the contract, but even the expert might slip on the defense. West opened the king of clubs, which was won in dummy with the ace. The three of spades was led and East failed to go up with the king, so West was forced to win the trick with the queen. Another club was led, which McGhee trumped with the five of hearts. The six of spades was led, East won with the king and shifted to a diamond. McGhee put on the queen and West won with the ace.

West did his best by leading a spade, which East trumped, but McGhee overtrumped with the ace of hearts, then entered dummy by playing the queen of trumps and overtaking with the king. Another spade ruff established dummy's fifth spade. Now dummy was entered by playing the deuce of hearts and the losing diamond was discarded.

McGhee did not depend upon finding the diamond ace in the East hand because the bidding indicated that it was held by West. If he had led the jack of spades from dummy, in all probability East would have covered with the king. Now when the diamond ten came out, West would win with the ace and could immediately return a diamond, knocking out McGhee's other diamond honor and defeating the contract.

Now that hats are sporting great ribbon bows right in the back, you must take more than a casual glance at your Back View! Bows draw attention to your neckline and your neckline. Guard both of them well!

"We'd probably appreciate it much more at 50 than we would at 10."

THERE OUGHTA BE A LAW

By FAGALY and SHORTEN

Why Grow Old?

By Josephine Lowman

Women show their age in different ways. The giveaway may be an old looking hand, a crepey neck, lines under the eyes, or any number of other thing. However, there is one figure fault which is almost universal unless a woman exercises in order to avoid it.

I am speaking of the inner line of the upper leg. This is certain to become flabby without exercise and often accumulates fatty deposits, too. The exercises which are corrective to this defect are not generally as well known as those for a protruding abdomen or large hips.

There are many good ones. For instance, the following one is splendid: Lie on the floor on your back. Extend your knees and place your feet flat on the floor. Straighten your left leg and touch your left foot to the floor as far out to the left as you can, knee straight. Do not touch forward but straight to the side. Bend your knee and return your foot to starting position. This time straighten your right leg and touch the floor with your right foot, right knee stiff. Return to beginning position. Continue, alternating left and right.

Another: Lie on your back with your legs straight and your arms on floor at sides, slightly away from your body. Lift both legs half way upward with stiff knees. Keep the legs straight as you swing them apart. Now swing them together, crossing the left leg over the right. Again swing them apart this time swing together and cross your legs with your right leg over the left. Continue.

The leg motion used in swimming

The leg motion used in swimming is helpful for shapely legs such as those of Actress Leslie Brooks.

the breast stroke is also a splendid exercise for this figure fault. If you have large thighs and

wish to reduce them, send a stamped, self-addressed envelope with your request for that leaflet No. 4 "Reducing the Thighs" to Josephine Lowman in care of The Edmonton Bulletin.

Smart Spring Classic

Oh, so easy to wear... day long, everywhere! That's Pattern 4810... smooth shirtwaist with soft sleeves and slim skirt panels. Sewing time-saver: yoke and sleeves cut in one. This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions. Pattern 4810 comes in sizes 34, 36, 38, 40, 42, 44, 46, 48, 50. Size 36 takes 3 1/2 yards 39-inch.

Send TWENTY CENTS (20c) in coins (stamps cannot be accepted) for this pattern. Print plainly SIZE, NAME, ADDRESS, STYLE NUMBER.

Send your order to The Edmonton Bulletin, Pattern Department, 60 Front Street, W., Toronto, 1-A, Ont.

Please allow a week or ten days for delivery.

Send a stamped, self-addressed envelope with this request to Myrtle Meyer Eldred in care of The Edmonton Bulletin.

Points for Parents

Not This

This

Mother: "Hold him, Dad, while I put some disinfectant on my skinned knee." (Another day: "Now I'll be the doctor and put medicine on your skinned knee.")

Using force may accomplish a desired end, but it never creates co-operative attitude.

THESE WOMEN

By d'Alessio

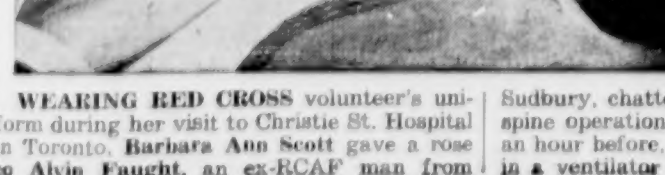

"Hmm—now I know why they call them SITTERS!"

MISSING LINK STILL A MYSTERY: "Missy", cocker spaniel owned by L. L. Hill, San Luis Obispo, Calif., gave birth to six pups. Two days later one of them died. "Missy" according to Hill, deserted her litter several nights later only to return the next morning with a replacement, the new-born white rabbit seen above. But it's still a mystery to Hill where "Missy" found the rabbit, since none of the neighbors raises them.

EXCHANGE STUDENTS: Three co-eds of Grinnell and Antioch colleges are attending Hampton, Virginia, a Negro college, as inter-culture exchange students in a program toward promoting "closer understanding between racial groups." Left is Margaret Thompson, Des Moines, Ia., of Grinnell college; and Myra Mundy, Atlantic City, N.J., of Hampton Institute.

Sudbury, chatted with him about his recent spine operation and her skating plans. Half an hour before, Faught had discovered a fire in a ventilator blower.
